The corporate governance of Mitsui & Co., Ltd. (the “Company” or “Mitsui”) is described below.

I. Basic Views on Corporate Governance, Capital Structure, Corporate Profile and Other Basic Information

1. Basic Views

[Basic Corporate Governance Policy]

In structuring the corporate governance framework, Mitsui places emphasis on “improved transparency and accountability” and “the clarification of the division of roles between the oversight activities and executive activities of the management.”

For the “improved transparency and accountability,” Mitsui ensures sound supervision and monitoring of management with the view point of External Directors and External Audit & Supervisory Board Members (hereinafter referred to as the “external members”). Mitsui has also established an internal control system for disclosure so that all executives and employees fulfill their accountability to stakeholders under the principle of fair disclosure. For “the clarification of the division of roles between the oversight activities and executive activities of the management,” Mitsui delegates execution of business to Managing Officers substantially while the Board of Directors retains a supervisory role over Managing Officers’ business activities. Chief Operating Officers of 15 business units within headquarters and 3 regional business units serve concurrently as Managing Officers and engage in business operation for the consolidated group in a responsive and flexible manner.

While increasing the effectiveness of supervisory functions by having Audit & Supervisory Board Members, Mitsui implements corporate governance by maintaining an Audit & Supervisory Board system because it believes that having internal Directors who are familiar with our business practices and operations is essential to the business of a general trading company. By adopting a Committee System in which external members participate, Mitsui achieves highly effective corporate governance to secure “improved transparency and accountability” and “the clarification of the division of roles between the oversight activities and executive activities of the management.” In order to realize effective corporate governance for shareholders and other stakeholders, Mitsui has established, and maintains, the following structures:

- (a) The Board of Directors is the highest authority for execution of business and supervision, and in order to secure this function, the number of directors shall be set at an appropriate number where effective discussion is possible. As advisory committees to the Board of Directors, Mitsui also has in place the Governance Committee, the Nomination Committee and the Remuneration Committee, in which External Directors and/or External Audit & Supervisory Board Members participate as members.
- (b) The Audit & Supervisory Board Members supervise the Directors' execution of duties as an independent institution with the mandate of the shareholders. For this purpose, Audit & Supervisory Board Members carry out multi-faceted, effective audit activities such as attending important internal meetings, verifying reports and investigating our business, and take necessary measures in a timely manner.

Regarding Mitsui's basic views and policies on Corporate Governance, we published "Mitsui & Co., Ltd. Corporate Governance and Internal Control Principles" on Company's website as follows.

https://www.mitsui.com/jp/en/company/outline/governance/system/pdf/corp_gov.pdf

(Notes)

"External Director", "Audit & Supervisory Board Member" and "External Audit & Supervisory Board Member" are used in the same sense of "External Director", "*Kansayaku*" and "External *Kansayaku*" in the heading of the format of this Corporate Governance Report respectively. Further, "Independent Director" is an External Director who is unlikely to have conflicts of interest with general shareholders, as stipulated by the Tokyo Stock Exchange.

[Reasons for Non-compliance with the Principles of the Corporate Governance Code]

Mitsui complies with all Principles of the Corporate Governance Code.

[Disclosure Based on the Principles of the Corporate Governance Code]

[Principle 1.4 Cross-Shareholdings]

■ Policy related to acquisition and holding of cross-shareholdings

Mitsui defines listed shares held for reasons other than purely for investment returns as cross-shareholdings. Cross-shareholdings here include not only mutual shareholdings but also unilateral ones. These are acquired and held in accordance with the following policy.

- (1) The purpose of cross-shareholdings in investees for which the equity-method is applicable is to improve the corporate value of the investees and increase equity-method based profit and dividends to be received through participation in the management of the investees. Cross-shareholdings in companies other than equity-method applicable investees (including deemed shareholdings) will be categorized as "listed shares for general investment purposes" and regarded as a means of creating business opportunities and building, maintaining, or strengthening business and collaborative relationships.
- (2) Investments in the shares of equity-method applicable companies are implemented only in cases where the economic rationale is recognizable. At the same time, each year the Board of Directors

shall review the meaning of and policy on holding such shares, including a verification of the rationale in relation to our cost of capital, within the framework of portfolio reviews that are carried out in relation to investment assets generally, including unlisted shares. If the meaning of holding these assets has significantly declined, a policy toward withdrawal shall be set out.

- (3) When acquiring listed shares for general investment purposes, the Company shall conduct a prior stringent assessment of the probability of the investment creating business opportunities, or building, maintaining, or strengthening business and collaborative relationships. At the same time, each year, the Board of Directors shall review the meaning of and policy on holding listed shares for general investment purposes by verifying the economic rationale based on the status of dividends, business-related profits, and other related profits, in comparison to our cost of capital, and verification of qualitative aspects based on the status of and outlook for the creation of business opportunities, as well as business and collaborative relationship with each cross-shareholding investee. If as a result of this review the meaning of holding these assets has significantly declined, our policy is sell such assets thereby reducing the cross-shareholdings.

■ Result of verification at Board of Directors meeting

Details of verification by the Board of Directors concerning the cross-shareholdings as of March 31, 2019 are as follows.

Equity-method applicable investees:

With regard to every individual stock, checked if it falls under the exit criteria specified within the Company, consisting of the profitability and qualitative criteria. As a result, we confirmed the policy as to whether to hold, exit or continue to temporarily hold to watch those stock that fall under the exit criteria.

Listed shares for general investment purposes:

As far as economic rationality is concerned, confirmed that the related profit exceeds our cost of capital in about half of the individual stocks as a result of verification of the related profit situation, including dividends and related trading profit compared with our cost of capital vis-à-vis the amount shown in the balance sheet at the end of the term for every individual stock. At the same time, verified and confirmed the qualitative rationale for holding every individual stock. Confirmed the stocks where future sale will be considered as a result of a lessening of the rationale for holding based on both qualitative and quantitative aspects.

■ Policy on the exercise of voting rights

With respect to the exercise of voting rights of listed shares held by the Company, the content of each proposal shall be considered in relation to the management policies and business plans, etc., of the investee, and deliberation shall be conducted on a case-by-case basis by taking into consideration comprehensively from the perspectives of (1) whether or not the proposal contribute to enhancing corporate value of the investee or mutual benefit of the shareholders, and (2) the impact that the proposal may have on the enhancement of the corporate value of the Company in terms of the creation of business opportunities, and building, maintenance, and strengthening of business and collaborative relationship between the investee and the Company.

At the same time, by assigning employees who represent the fund subscribers, it has created frameworks to carry out various tasks, such as the formulation of basic fund management policies, the allocation of basic assets based on certain strategies, the selection and assessment of fund management institutions, and monitoring of the fund management status. They have assigned people, such as officers or employees, who are from Mitsui, to also properly manage the issue of conflicts of interest between the Corporate Pension Fund beneficiaries and the Company with regard to the formulation and administration of these organizational frameworks.

The Corporate Pension Fund possesses assets, such as investment trusts and pension insurance, in accordance with the basic fund management policy and strategic allocation policy of base assets, and entrusts the fund management with contract fund management institutions by providing contract institutions with these fund management guidelines. Matters relating to Independent Directors/*Kansayaku*

1. Mitsui has submitted filings with the domestic stock exchanges on which it is listed designating all external members as Independent Directors and Independent Audit & Supervisory Board Members.
2. Policy regarding independence of external members, their function and roles

[External Directors]

- The prospective person's extensive business experience and knowledge are required to deliberate on such board meeting proposals as investments and loans, and knowledge of his or her particular area of business should be used.
- Mitsui puts great value on ensuring independence of the External Directors from Mitsui in the pursuit of their management oversight functions. Also, with a view to overseeing business operations in a way that reflects the standpoint of our diverse stakeholders, in selecting External Directors, Mitsui shall take into consideration the fields from which candidates originate, along with their gender.

Given that Mitsui is a general trading company with extensive business dealings, it has been decided to make appropriate efforts by the Board of Directors to handle likely conflicts of interest involving the prospective External Directors in individual transactions with external parties.

[External Audit & Supervisory Board Members]

The External Audit & Supervisory Board Members shall be elected with the objective of further heightening the neutrality and independence of the auditing system and further improving the effectiveness of the auditing with their deep knowledge and insight gained as experts, and, in particular, it is expected that the External Audit & Supervisory Board Members will give an objective voice to their auditing opinions from the standpoint of neutrality, building on such factors as independence.

When selecting candidates for External Audit & Supervisory Board Members in addition to the appointment standard for Audit & Supervisory Board members stated in II.2.1 "*Corporate Governance Structure*" in this report, the Audit & Supervisory Board shall confirm that no issues with independence arise by taking into consideration such factors as relations with the company, management and important staff members.

[Criteria of independence for external members]

External Directors or External Audit & Supervisory Board Members of Mitsui who do not fall under any of the following items are to be judged to have independence.

- (1) Person who is currently or was in the past ten years an executive director, executive officer, managing officer, manager, employee, administrative officer, etc. (hereinafter referred to as "executing person") of Mitsui or Mitsui's consolidated subsidiaries

- (2) Person or the executing person of a corporation holding either directly or indirectly 10% or more of total number of the voting rights of Mitsui
- (3) Person whose major business partner is Mitsui or Mitsui's consolidated subsidiaries (*1) or the executing person of the same

- (4) Major business partner of Mitsui or Mitsui's consolidated subsidiary (*2) or the executing person of the same
 - *2 If Mitsui or Mitsui's consolidated subsidiary received from the relevant business partner the payment equivalent to 2% or more of Mitsui's annual consolidated transaction volume in the most recent fiscal year or the relevant business partner provided Mitsui or Mitsui's consolidated subsidiary with the money loans equivalent to 2% or more of Mitsui's consolidated total assets, the relevant business partner is deemed to be the major business partner of Mitsui or Mitsui's consolidated subsidiary.
- (5) Independent auditor of Mitsui or Mitsui's consolidated subsidiary or employee, etc. of the same
- (6) Person providing professional services such as consultant, lawyer and certified public accountant who received from Mitsui monetary payment or other property benefits exceeding ¥10 million in total other than officer remuneration in the most recent fiscal year (referring to the person belonging to the organization if the one who received the relevant property is an organization such as corporation and association)
- (7) Person or the executing person of a corporation who received the annual total of ¥10 million or more of donations or aid funds from Mitsui or Mitsui's consolidated subsidiary in the most recent fiscal year
- (8) Person who has fallen under any of (2) to (7) above in the past three years
- (9) Spouse or relative within the second degree of kinship (hereinafter referred to as "close relatives") of the person who is currently or has been recently the important executing person of Mitsui or Mitsui's consolidated subsidiary (including Director who is not the executing person in the case of External Audit & Supervisory Boardmember)
- (10) Close relatives of the person who currently falls or has fallen recently under any of (2) to (7) above (excluding the one who is not important)

3. Supplementary Explanation

Although Mitsui paid market research fees and so forth exceeding ¥10 million in the most recent business year to Deloitte Tohmatsu Consulting LLC, at which Mr. Mori's eldest son was an employee until April 2017, the relevant amount of payment was less than 0.1% of Deloitte Tohmatsu Consulting LLC's annual sales; moreover, Mr. Mori's eldest son was in a non-managerial role, and was not involved in duties consigned by Mitsui; as such, Mr. Mori's eldest son corresponds to a "one who is not important" defined under the Mitsui's Criteria of Independence. From the above, Mitsui has determined that there is nothing

that would affect the independence of Mr. Mori for External Audit & Supervisory Board Member. Other than the above, there is no special interest between Mr. Mori and Mitsui, therefore, Mr. Mori is deemed to appropriately carry out his duties as the independent and neutral External Audit & Supervisory Board Member.

Disclosure of Policy on Determining Remuneration Amounts and Calculation Methods

Remuneration for directors (excluding External Directors) is determined by a resolution of the Board of Directors on the basis of deliberations by the Remuneration Committee, which is chaired by an External Director. It consists of basic fixed remuneration, performance-related bonus based on Mitsui's key performance indicators, and stock-based compensation linked to the stock price as medium to long-term incentive compensation. In the year ended March 31, 2019, remuneration linked to the stock price is provided in the form of stock options, but from the year ending March 31, 2020 onwards, it will be provided as remuneration of share performance-linked restricted stock. Also, each Director (excluding External Directors) is required to purchase Mitsui's shares in an amount equivalent to at least 10% of his or her monthly remuneration but less than ¥1 million through the Mitsui Executives' Shareholding Association.

The appropriateness of percentages of basic fixed remuneration, performance-related bonus, and stock-based compensation is verified each year by the Remuneration Committee, taking trends at other companies and other factors into consideration. The findings are reported to the Board of Directors.

The method used to determine the amount of performance-related remuneration is as follows. (The word "Directors" in (1) and (2) below refers to Directors excluding External Directors.)

(1) Performance-related bonus

(a) Total amount paid in bonuses for Directors

The performance-related bonus is calculated by the formula that is advised as appropriate by the Remuneration Committee and subsequently resolved at a Board of Directors meeting.

For fiscal year ended March 31, 2019, total amount of bonus is calculated as follows:

Total amount of bonus = (Consolidated profit for the period attributable to owners of the parent × 50% × 0.1%) + (Core operating cash flow × 50% × 0.1%)

However, the total amount shall not exceed ¥700 million. If the consolidated profit for the period attributable to owners of the parent is minus, i.e. "net loss", and/or core operating cash flow is minus, i.e. "cash outflow", then such item is set as 0 for the calculation.

Consolidated profit for the period attributable to owners of the parent and core operating cash flow are important indicators for Mitsui, and they are taken into consideration when determining the dividend policy.

(b) Amount paid as individual bonuses

The total amount calculated by the method shown in (a) above is distributed to each Director in proportion to the following points, which are assigned for each position. Amounts will be rounded to the nearest ¥10,000, however, if the total amount of the individual bonuses paid exceeds ¥700 million, each amount less than ¥10,000 will be rounded down.

(Amount individually paid = total amount of bonus × position points / sum of position points)

Points by position: Chairman/President (10), Executive Vice President (7), Senior Executive Managing Officer (6), Executive Managing Officer (5)

Based on the composition of the Directors as of the date of the issuance of this report, the maximum amounts that may be paid for each position (at the limit of the total bonus amount of ¥700 million.) are as follows:

Chairman/President = ¥700 million × 10 points / (10 points × 2 persons + 7 points × 3 persons + 6 points × 3 persons + 5 points × 1 person = 64 points) = ¥109.37 million

Executive Vice President = ¥700 million × 7 / 64 points = ¥76.56 million

Senior Executive Managing Officer = ¥700 million × 6 / 64 points = ¥65.62 million

Executive Managing Officer = ¥700 million × 5 / 64 points = ¥54.68 million

(2) Remuneration system of share performance-linked restricted stock

The purpose of the remuneration system of share performance-linked restricted stock (hereinafter referred to as the "System") is to provide an additional incentive to Directors to achieve sustaining growth in Mitsui's medium to long-term performance and corporate value, and to foster a heightened sense of shared value with shareholders, by paying remuneration consisting of Mitsui's ordinary shares, with a certain transfer restriction period, to Directors (shares allocated under the System will be referred to below as the "Shares") in addition to basic fixed remuneration and performance-related bonus. This new compensation system is a share performance-linked remuneration system, since the number of Shares held by Directors at the end of a certain period (hereinafter referred to as the "number of Shares after valuation") would vary based on a comparison of the growth rates of Mitsui's stock price and the Tokyo Stock Price Index (TOPIX) over a specified period. By taking into account not only movements in Mitsui's stock price, but also the performance of Mitsui's stock compared with the stock market as a whole, the System is intended to give Directors a heightened awareness of the need to improve Mitsui's corporate value by amounts greater than the growth of the stock market.

(a) Payment method

Under the System, Directors would be granted an entitlement to receive monetary remuneration and will be issued Shares, whether newly issued as ordinary shares or disposed of, in exchange for the in-kind investment of their full entitlement. The amount of entitlements to be paid to each Director under the System will be determined by the Board of Directors based on deliberations by the Remuneration Committee, within the maximum limit approved at the General Meeting of Shareholders.

(b) Total number of shares to be issued or disposed of, paid-in amount per share

The total number of ordinary shares that would be newly issued or disposed of by Mitsui under the System would be no more than 500,000 per year (however, this number may be changed within reasonable limits if Mitsui's ordinary shares are affected by a stock split (including a free allotment of new ordinary shares in Mitsui) or a reverse stock split, or if other circumstances arise that require adjustments to the total number of Mitsui's ordinary shares that are issued or disposed of as restricted shares). The paid-in amount per Share will be decided by the Board of Directors based on the average daily closing price for Mitsui's ordinary shares on the Tokyo Stock Exchange (excluding days on which there is no closing price, the price will be rounded up

to the nearest whole yen) in the three months immediately prior to the month containing the date on which the Board of Directors made a resolution concerning issuance or disposal of the shares (hereinafter referred to as the "date of the Board of Directors' resolution"), within a range that is not especially advantageous to the Directors.

(c) Details of share performance linkage conditions

The number of shares after valuation would be determined as follows in linkage with the share performance, etc.

If the growth rate of Mitsui's share price (*1) is equal to or greater than 150% of the growth rate of the Tokyo Stock Price Index (TOPIX) (*2), the number after valuation will be deemed to be the entire number of Shares issued (*3).

If the growth rate of Mitsui's share price is lower than 150% of the TOPIX growth rate, the number of Shares after valuation will be a number calculated using the following formula, and the remainder of the Shares will be acquired by Mitsui without compensation at the end of the valuation period.

$$\begin{aligned} \text{Number of shares after valuation} &= \text{Number of Shares} \times \frac{\text{Mitsui's share price growth rate}}{\text{TOPIX growth rate} \times 150\%} \\ &= \text{Number of Shares} \times \frac{(A + B) \div C}{(D \div E) \times 150\%} \end{aligned}$$

(*1) This is the growth rate of Mitsui's share price during a valuation period defined as three years from the date of the Board of Directors' resolution (or the period to the date of retirement if a Director retires from their role as a director or managing officer of Mitsui before the elapse of three years. The same applies to (*2)). The growth rate will be specifically calculated as follows:

A: The average closing price of Mitsui's stock on the Tokyo Stock Exchange during the three months immediately prior to the month in which the final day of the valuation period falls

B: The total dividend per share for Mitsui's ordinary shares during the valuation period

C: The average closing price of Mitsui's stock on the Tokyo Stock Exchange during the three months immediately prior to the month in which the date of the Board of Directors' resolution falls

$$\text{Growth rate of Mitsui's share price} = (A+B) / C$$

(*2) This is the growth rate of the TOPIX during a period of three years from the date of the Board of Directors' resolution. It will be specifically calculated using the following formula.

D: The average TOPIX closing price on the Tokyo Stock Exchange during the three months immediately prior to the month in which the final day of the valuation period falls

E: The average TOPIX closing price on the Tokyo Stock Exchange during the three months immediately prior to the month in which the date of the Board of Directors' resolution falls

$$\text{TOPIX growth rate} = D/E$$

(*3) Number of Shares = Entitlement to monetary compensation determined according to rank /
Paid-in amount per Share

(d) Restriction on transfer

Directors would be unable to transfer, pawn, or otherwise dispose of the Shares (hereinafter referred to as "Restriction on Disposal") for a period of 30 years from the pay-in date (hereinafter referred to as "Restriction on Transfer Period"). During the Restriction on Transfer Period, the Shares would be managed in dedicated accounts established with a securities company nominated by Mitsui.

(e) Lifting of the Restriction on Disposal

Irrespective of the provisions of (d) above, the Restriction on Disposal will be lifted if a Director retires as a director or managing officer of Mitsui before the end of the Restriction on Transfer Period.

(f) Grounds for acquisition without compensation

In addition to the condition that there will be an acquisition without compensation under the conditions for linkage to the share performance in (c) above, Mitsui will acquire without compensation all or part of the Shares during the Restriction on Transfer Period if a Director engages in actions that contravene laws and regulations, or on other grounds as stipulated in the agreement concluded between Mitsui and the Director.

(g) Procedures in the event of organizational restructuring, etc.

Mitsui would make reasonable adjustments to the number of Shares to be acquired without compensation or the time when the Restriction on Disposal will be lifted, by resolution of the Board of Directors, if Mitsui enters into a merger agreement resulting in the absorption of Mitsui, or a share swap agreement or share transfer plan under which Mitsui becomes a wholly owned subsidiary, or otherwise undertakes organizational restructuring, etc., during the Restriction on Transfer Period, pursuant to a resolution of a General Meeting of Shareholders (or a resolution of the Board of Directors in the case of a matter for which a resolution of a General Meeting of Shareholders is not required).

External Directors, who are separated from business execution, would receive only basic remuneration and would not be paid or given bonus or stock-based compensation linked to the stock price.

Directors are not paid retirement compensation.

As stated below, approval has been given through a resolution at a General Meeting of Shareholders that decisions about the maximum amount of Directors' remuneration and the maximum amounts for individual payments are taken within that limit by the Board of Directors. However, following a resolution at the Ordinary General Meeting of Shareholders held on June 20, 2019 to introduce a share performance-linked restricted stock remuneration system, stock-based compensation stock options with stock price conditions will be abolished (excluding options already granted). Thereafter, no subscription rights to shares will be issued as remuneration for Directors.

2. Audit & Supervisory Board Members receive only basic fixed remuneration which does not include a performance-related portion. The total amount of basic remuneration shall not exceed ¥240 million per year (Resolved at the General Meeting of Shareholders on June 21, 2017. The number of the recipients at the time is 5.).The basic remuneration for each Audit & Supervisory Board Member is determined within that limit by discussions among the Audit & Supervisory Board Members. Retirement compensation is not paid to the Audit & Supervisory Board Members.

The method used to evaluate the effectiveness of the Board of Directors in FYE March 2020, and the results of that evaluation, are summarized below.

< Evaluation method > (Self-assessment, Third-party Evaluation)

In the current fiscal year, in addition to self-evaluations, we also employed a third-party organization to carry out the effectiveness evaluation process for the Board of Directors.

- (1) In December 2019, a questionnaire survey of all 14 members of the Board of Directors and five members of the Audit & Supervisory Board (“the FYE 3/2020 Survey”) was carried out.
- (2) Between January and early February of 2020, the third-party evaluation organization conducted individual interviews of all directors and Audit & Supervisory Board members.
- (3) There was an exchange of views about the effectiveness of the Board of Directors at an external members meeting held on February 4. All external directors and External Audit & Supervisory Board members were present.
- (4) On March 4, 2020, the third-party evaluation organization submitted a report to Board members containing an anonymized summary of comments from the individual interviews. At a meeting of the Governance Committee on the same date, Board members discussed the results of the FYE 3/2020 Survey, the results of the external members meeting, and the results of the third-party evaluation.
- (5) The evaluation of the effectiveness of the Board of Directors for FYE March 2020 will be finalized after discussion at a Corporate Management Committee meeting to be held on March 30, 2020, and discussions based on a report from the Governance Committee at a Board of Directors meeting to be held on April 8, 2020.

< Effectiveness Improvement Initiatives in FYE 3/2020 >

Based on the results of the evaluation of the effectiveness of the Board of Directors in FYE March 2019, the Board of Directors and its Secretariat implemented the following measures

in FYE March 2020:

(1) Deepening of Information about Individual Business Projects

Efforts were made to ensure that materials provided to the Board of Directors concerning individual business projects clearly show the positioning of each project within the strategies of business units, including the amount of investment and loans as a percentage of the total for the business unit concerned, and a quantitative indication of the contribution to profits. Another focus of efforts was the improvement of materials showing the positioning of large-scale projects on a company-wide basis, and the influence on other business areas, including briefings about positioning in segment strategies, etc., and company-wide risk exposure in various countries. In addition, cash flow allocation progress reports were presented at external members meetings. In the FYE 3/2020 Survey, the majority of external directors gave positive assessments about the deepening of information concerning individual business projects. Some participants commented that the improvement of materials provided to the Board of Directors concerning individual business projects made it easier to ascertain and understand management strategies, enabling them to discuss projects more strategically.

(2) Free Discussions at Off-site Meetings

Based on the results of the previous year's effectiveness evaluation, free discussions at off-site meetings have been held continuously in the current fiscal year. Directors and Audit & Supervisory Board members held a free discussion session at our training center in Yokohama in November 2019. This resulted in intensive discussions focusing on (1) management strategies as a conglomerate, and (2) Mitsui Diversity Management.

The majority of external directors provided positive assessments of the off-site free discussion sessions in the FYE 3/2020 Survey. However, participants also called for additional free discussion sessions without overnight stays.

(3) Changes to the Management of Board of Directors Meetings

In the current fiscal year, we have made continual efforts relating to the management of Board of Directors meetings. In addition to an initiative to distribute materials for Board meetings earlier, we also improved the management of meetings to allow the limited time available to be concentrated on deliberations about important projects. This was achieved by using written decisions to provide sufficient time for deliberations about projects requiring more discussion. In addition, we took steps to include information about Corporate Management Committee deliberations in materials about individual business projects for Board meetings.

In the FYE 3/2020 Survey, the majority of external directors provided positive assessments of these changes to the management of Board of Directors meetings.

(4) Items Relating to Advisory Committees

In the fiscal year ended March 2020, the Board of Directors received reports concerning the activities of the Remuneration Committee and Nomination Committee. In addition, a report about activity plans for the various advisory committees was presented at the Board

meeting in July 2019.

The majority of external directors provided positive assessments in the FYE 3/2020 Survey. However, other opinions identified priorities for further improvement, including a call for the Governance Committee to stipulate themes for its meetings in an annual plan and increase the frequency of its meetings, and the view that the themes should also be debated by the committee.

(5) Effectiveness Evaluation Method

In the fiscal year ended March 2020, the effectiveness of the Board of Directors was evaluated by a third party, in addition to self-evaluations.

The main view expressed in the FYE 3/2020 Survey was that we should consider the method to be used in the next fiscal year after examining the results of the latest third-party evaluation. Following deliberations by the Governance Committee, it was decided to carry out a study with a view to having the effectiveness of the Board of Directors evaluated regularly by a third-party organization.

< Outline of Evaluation Results >

(1) Results of Third-party Evaluation

According to the third-party evaluation, Mitsui & Co.'s governance structures are of a generally high standard, thanks to years of determined efforts. The results of the third-party evaluation also show that positive views were in the majority for the following interview items:

- Concerning the composition of the Board of Directors, in addition to the excellent knowledge of the external directors, Mitsui & Co. has also achieved diversity in terms of both attributes relating to gender, nationality, and generation, as well as experience of management, government administration, finance, law, and accounting.
- The top management's strong commitment to governance, compliance, and integrity is reflected in Mitsui & Co.'s development of internal control mechanisms and essential organizational structures, and in the formulation and consistent application of the "With Integrity" code of conduct.
- Discussions at Board of Directors meetings are free, open, and highly transparent, thanks to efforts to improve the materials used at meetings, such as through the inclusion of quantitative and qualitative analyses, and positioning in terms of corporate and business unit earnings and risks in materials relating to individual business projects.
- All issues are properly debated by members of the Board of Directors and Audit & Supervisory Board in multiple forums, including Board meetings, external members meetings, and free discussion sessions, as well as during meals. Topics for discussion span the entire company and include strategies and medium- to long-term visions.
- The Chairman of the Board of Directors maintains a neutral and attentive stance, and manages proceedings to ensure that the views of internal and external directors are

actively heeded. The Board of Directors has adopted a consensus-based, rather than a majority-based, decision approach. Instead, matters are debated multiple times if necessary, based on views expressed or issues raised by external directors or Audit & Supervisory Board members concerning individual business projects.

- The Board of Directors secretariat has worked to enhance advance briefings. It has also taken steps to achieve continuous improvements in issues relating to the management of Board meetings, while also responding with care and sincerity to external feedback, and working constantly to achieve further improvement in the careful and committed support that it provides to directors.

(2) Results of Self-evaluations

The following conclusions concerning the effectiveness of the Board of Directors in FYE March 2020 were confirmed on the basis of the results of the FYE 3/2020 Survey, exchanges of views at external members meetings, and deliberations at meetings of the Governance Committee and Board of Directors, as well as the results of the third-party evaluation:

- The majority of members expressed the view that there had been improvement concerning matters raised in the previous year, including (1) the deepening of discussion about individual business projects, (2) off-site free discussion sessions, (3) changes to the management of Board of Directors meetings, (4) the advisory committees, and (5) effectiveness evaluation methods.
- Concerning the composition of the Board of Directors, there has been progress toward the improvement of diversity, including an increase in the number of female and non-Japanese external directors, as well as people with practical business experience.
- As far as the management of Board of Directors meetings is concerned, the early distribution of material for meetings has become the norm thanks to the introduction of paperless technology through the use of tablet device. Deliberations at Corporate Management Committee meetings are accurately recorded, and the Board of Directors secretariat is providing effective support, including appropriate scheduling.
- Ample time is being provided for deliberations by the Board of Directors by ensuring that the number of agenda items is appropriate, and by making efficiency improvements, including the active use of written resolutions. Mitsui & Co.'s strategic direction and business strategies are discussed at Board meetings in an atmosphere of freedom and open-mindedness. External members have opportunities to deepen their understanding of overall strategies and strategic directions through wide-ranging discussions at external members meetings and free discussion sessions attended by directors and Audit & Supervisory Board members, including external members.
- The Board of Directors receives reports containing the results of analyses of diverse company-wide risks. For example, it has started receiving reports concerning control systems, etc., for company-wide and integrated risks. Based on these reports, the Board of Directors identifies and examines risks in light of the knowledge of individual directors and Audit & Supervisory Board members.

- Funding and opportunities are provided appropriately to enable external directors and external Audit & Supervisory Board members to deepen their understanding of internal business operations, control systems, and environments. For example, there are increased opportunities to acquire the necessary knowledge through external members meetings and prior briefings. Mitsui & Co. has also established effective collaboration systems, including forums for regular exchanges of views between external directors and the management team, accounting auditors, and the Internal Auditing Division.

Based on the results summarized above, we can conclude that the Board of Directors achieved an appropriate level of effectiveness in FYE March 2020. However, there is also evidence of the need to enhance effectiveness further through initiatives targeting the items listed below.

< Initiatives toward Further Improvements in Effectiveness >

- Actions Relating to the Management of Board of Directors Meetings

Based on views heard from directors and Audit & Supervisory Board members during the effectiveness evaluation process for the current year, we will work on the following measures in relation to matters pertaining to the management of Board of Directors meetings:

- ① Provision of information about individual business projects at the consideration stage
- ② Progress reports on projects after their approval by the Board of Directors
- ③ Extension of time for prior briefings about important projects
- ④ Provision of information about the CF and IRR that were projected at the investment stage for impaired projects
- ⑤ Review of the frequency and duration of Board of Directors meetings
- ⑥ The addition of free discussion sessions that do not involve overnight stays

- Further Improvement of the Effectiveness of the Board of Directors in Relation to Discussion of Overall Strategies

One of the views put forward concerning the discussion of the overall strategies by the Board of Directors was that while there had been progress in some business areas in relation to strategy-related discussions about individual business projects, there was still room for further improvement. Another person expressed the opinion that business strategies are now being debated more actively than in the past, that this is a very positive trend from the viewpoint of external directors, and that there should be further deepening of discussions. Based on these views, we will work to achieve further improvements in the effectiveness of the Board of Directors through efforts to energize discussions about Mitsui & Co.'s overall strategies from the respective viewpoints of external and internal directors.

- Clarifying the Roles of the Advisory Committees

It was suggested that priority should be given to clarifying the roles of the committees that advise the Board of Directors, while identifying the advantages of voluntary advisory committees in a company with an Audit & Supervisory Board.

In response to this suggestion, we will work to clarify the expected roles of the committees, with the aim to further realize the functions of voluntary advisory committees.

We will continue our efforts to maintain and improve the effectiveness of the Board of Directors, including the above points. Our aim is to ensure effective supervision of management by the Board of Directors, and to achieve sustainable growth in corporate value.

The composition of the personnel in the division as of March 31, 2019, is as follows: of a total of 73 people, which includes one General Manager, 37 internal auditors, 25 members in charge of audits, and 10 staff members; 56 people are stationed in the Internal Auditing Division in the Head Office, 6 people are stationed in Internal Auditing Offices overseas, 4 people are stationed in the Internal Auditing Department within Business Supporting Units, and 7 people are stationed in subsidiaries.
- In the regular audits which cover Mitsui, Overseas Offices, Overseas Trading Subsidiaries, and other subsidiaries, internal auditors carry out independent and objective evaluations, pursuant to the rules on internal audits, etc., with an emphasis on risk management, effectiveness of management and operations, compliance, and appropriate financial reporting. In addition, the following audits are implemented as internal audits: cross-organizational and cross-functional audits by target and item, such as issues involving multiple organizations and business processes or security trade control systems, and extraordinary examinations to get a whole picture of such events that caused or could cause irregular economic losses or that jeopardized or could jeopardize the corporate trust, in order to identify the responsibility and recommend measures to clarify causes as well as to prevent recurrence. The Internal Auditing Division as an independent department compiles and checks the assessment of the entity-wide internal control regarding the credibility of financial reports, pursuant to the Financial Instruments and Exchange Act of Japan. The final results are reported to the below- mentioned J-SOX Committee.
- For each fiscal year, the internal auditing policy and the internal auditing plan go through the approval process by the President and Chief Executive Officer. Internal audits are

implemented either with or without advance notice to the target organization. The internal auditors provide feedback on the results of the internal audit to the organization before preparing the internal audit report and carry out a full exchange of opinions on their suggestions. The audit results are reported to the President and Chief Executive Officer. The reports from the organization on the implementation status of improvements regarding the issues identified are requested and are reevaluated.

2. Framework for internal control and execution of business activities

- Ultimate responsibility for execution of business operations lies with the President and Chief Executive Officer. The President and Chief Executive Officer delegates authority to the Chief Operating Officers of the business units and regional business units, who, in turn, report to the President and Chief Executive Officer. The Corporate Management Committee is organized for deliberating the basic policies and important matters relating to the overall management. The Committee consists of the Chairman of the Board of Directors, President and Chief Executive Officer (the committee chair), the Directors in charge of Corporate Staff Units, and Representative Directors or Managing Officers nominated by the President and Chief Executive Officer. The Corporate Management Committee is held weekly in principle. Matters referred to the Corporate Management Committee meeting are determined by the President and Chief Executive Officer, taking into consideration discussions among the Committee members.
- As mentioned above, the Internal Auditing Division, the division positioned directly under the President and Chief Executive Officer, examines the status of development and implementation of the internal control of Mitsui. With the delisting from NASDAQ in April 2011 and the termination of SEC registration in July 2011, Mitsui has implemented the internal control framework based on Japanese regulation from the year ended March 31, 2012. Even after the transition, Mitsui maintains its internal control system by positioning the internal control as the structure by which the management controls the executive body, aiming for: (1) "Improvement of effectiveness and

efficiency of operations,” (2) “Compliance with accounting standards and securing reliability of financial reporting,” (3) “Compliance with laws, rules that are equivalent to the laws, and observance of management philosophy and company rules including all codes of conduct which reflect this philosophy,” and (4) “The safeguarding of company assets;” and consists of: “control environment,” “risk assessment,” “control activities,” “information and communication,” “monitoring,” and “response to IT.” These objectives and components are as stated in the basic framework designated in “Standards and Practice Standards for Management Assessment and Audit concerning Internal Control Over Financial Reporting,” issued by the advisory board to the Commissioner of the Financial Services Agency.

- Mitsui has established major committees pertaining to the execution of business and implementation of internal control as follows, and is taking measures to respond to a wide range of risks and forms of businesses, which continue to increase and diversify. After reviewing the group companies’ internal control frameworks, Mitsui decided that from April 2019 onwards, the Corporate Management Committee assume the roles and responsibilities hitherto performed by the Internal Control Committee, such as the formulation of basic policies on internal controls, the integrated development of internal control frameworks, and the maintenance and improvement of their effectiveness. Moreover, the Internal Control Committee is abolished, and its subordinate organizations (Compliance Committee, Disclosure Committee and J-SOX Committee) report directly to the Corporate Management Committee. Also, considering the penetration of innovation activities in the company, Mitsui decided to dissolve the Business Innovation Committee and its roles and functions will be performed by the Information Strategy Committee from April 2019 onwards. The efforts made by the committees regarding execution of business activities and internal controls in the year ended March 31, 2019 are as follows:

Internal Controls Committee	Chaired by the President and Chief Executive Officer, as an organization under the Corporate Management Committee, the Internal Controls Committee established a basic policy related to the internal control system while developing, maintaining, and improving the effectiveness of the integrated management system. Further, Mitsui established the Compliance Review Month with the theme of “thinking about integrity”, carried out various activities such as seminars, exchanges of opinions and information, and so on. The compliance awareness survey was also conducted at Mitsui and its major affiliated companies located in Japan, in order to assess the awareness level of the group. Mitsui has also assisted

	<p>compliance officers of these affiliated companies by holding seminars and distributing the "Compliance Handbook for Mitsui Group companies". Furthermore, in order to further strengthen the detective and control, Mitsui encourages the use of the whistle-blowing system through continuous messaging from the CCO and other officers, displaying posters in office spaces, and releasing a video introducing the whistle-blowing system on the intranet. In addition, Mitsui started the operation of the Global Group Hotline, a special whistleblowing hotline for reporting and seeking advice for incidents that breach the laws of Japan or other countries regarding anti-trust (monopoly) laws or anti-corruption laws, or cases that give rise to the suspicion of such breaches. Whistleblowing reports from officers and employees of overseas offices and other subsidiaries in Japan and overseas received via this hotline are handled in an integrated manner by the Compliance Department belonging to Mitsui's head office Legal Division.</p>

Sustainability Committee	We have newly established the Sustainability Committee from May 2017 by strengthening and enhancing the role of the CSR Promotion Committee. As an organization under the Corporate Management Committee, this committee aims to promote management with greater awareness of the sustainability of both society and Mitsui and provides advice to the management. The Sustainability Committee met four times. The Committee conducted proposals to the Corporate Management Committee regarding sustainability-related management policies and business activities, and reported the results and the plans of sustainability promotion activities and the Mitsui & Co., Ltd. Environment Fund.

The Diversity Promotion Committee met in September, 2018. The Committee discussed and analyzed the progress and the current issues to realize our diversity management aims and made decisions on focusing on Diversity and Inclusion strategy on global and group basis.
Crisis Management Headquarters	As an extraordinary and non-permanent organization under the direct rule of the President and Chief Executive Officer, the Crisis Management Headquarters exercises necessary decision making in place of normal in-house decision mechanisms relating to all conceivable matters requiring an extraordinary response. The President and Chief Executive Officer serves as head of this Headquarters.

IV. Matters Related to the Internal Control System

1. Basic Views on Internal Control System and the Progress of System Development

Regarding internal control system and the related units, see II.2.2 “*Framework for internal control and execution of business activities*”. In the construction of internal control processes, aiming to achieve the above mentioned objective of the internal control process – “Improvement of effectiveness and efficiency of operations,” “Compliance with accounting standards and securing reliability of financial reporting,” “Compliance with laws, rules that are equivalent to the laws, and observance of management philosophy and company rules including all codes of conduct which reflect this philosophy,” and “The conservation of company assets” – the following systems are implemented.

1. Risk management system

As a general trading company engaging in a wide variety of businesses, risks arising from business activities are monitored and managed by Chief Operating Officers of business units and regional business units within their authorization delegated from the management. Risks associated with our business include quantitative risks such as credit risk, market risk, business risk arising from subsidiaries’ businesses and country risk, as well as qualitative risks such as compliance risk and operational risk. Measures taken by each business unit to manage quantitative risks include setting of position limits and loss-cut limits as well as monitoring of positions by divisions with relevant expertise. For the management of qualitative risks, the business units are obligated to observe related internal regulations. When a business unit or a regional business unit takes risks greater than the scope of authority granted to the Chief Operating Officers, it is necessary to obtain approval of the Corporate Management Committee or a Representative Director in charge, or a Senior Managing Officer in charge, depending on the importance of the case, in accordance with the standards of the internal approval system.

Furthermore, as stated in II.2.1. “Corporate Governance Structure” as committees responsible for business execution and the internal control system, organizations such as the Portfolio Management Committee, the Internal Controls Committee, the Sustainability Committee, and the Crisis Management Headquarters establish and develop the risk management structures and handle significant risks. These committees consist of Managing Officers and the General Managers of Corporate Staff Units. With respect to the risks in the fields they are in charge of, each division of the Corporate Staff Units is responsible for surveillance of the whole Company’s positions, control within the prescribed range of their authority, and supporting the relevant Directors and Managing Officers.

2. Internal control over financial reporting

As a result of the termination of the SEC registration, Mitsui implements the internal control framework as stipulated in the Financial Instruments and Exchange Act of Japan from the year ended March 2012. In addition to the Company-wide discipline, Mitsui has been conducting self-assessment by units subject to evaluation and testing by an independent division concerning the effectiveness of accounting and financial closing controls, IT controls, and business process level controls. After comprehensively assessing the above, Mitsui management confirmed that internal control over financial reporting is effective for the year ended March 31, 2019.

3. Internal controls regarding construction and management of information systems and information security

“Information Technology (IT) policy” is declared as a basic policy for IT utilization to promote further awareness raising of employees and enhancement of IT governance. The important principles for our global group information strategy are formulated in line with the corporate management policy through the discussions at the Information Strategy Committee established pursuant to the “Rules of Information Strategy Committee.” Under the system centered around the Information Strategy Committee, we are enhancing the system of internal control including management of various possible risks such as information leakage risks through maintenance of the following rules, necessary in light of development and operation of information systems and information security.

“Rules on Information System Management”: rules on the process of procurement, introduction and operation of Information assets

“Rules on IT Security”: code of conduct for the system supervisory divisions regarding IT security

“Rules on Information Management”: basic policies in terms of information risk management system and information management

“Rules on Protection of Personal Information”: rules for the handling of personal information required for business execution (Applied only in Japan)

“Rules on Cyber Security Countermeasures”: rules for preventive measures against cyber-attacks and emergency countermeasures in the event of incident

4. Compliance structure

In addition to the Compliance Committee, (see II.2.1 “*Corporate Governance Structure*”), chaired by the Chief Compliance Officer, Mitsui implements a compliance management system within the regular line of management at business division and department level. Further, Compliance Supervising Officers are designated at domestic and overseas units, branch offices and others.

Mitsui has set forth the “Business Conduct Guidelines for Employees and Officers of Mitsui & Co., Ltd.” (“Guidelines”) and has equivalent business conduct guidelines in place at its subsidiaries. Mitsui is striving to improve observance of the Guidelines through continuous monitoring and reviewing. Additionally, to further clarify our basic approach toward integrity and compliance on a global group basis, in November 2018, we have put together the “Mitsui & Co. Group Conduct Guidelines” to be shared by Mitsui & Co. Group companies. Please refer to the “Business Conduct Guidelines for Employees and Officers of Mitsui & Co., Ltd.” or “Mitsui & Co. Group Conduct Guidelines” released on the Mitsui’s website.

Mitsui has a total of eight whistle-blowing avenues in place, including those involving an external attorney at law and a third-party providing hotline services. Pursuant to the Whistleblower Protection Act, Mitsui made it clear that a whistle-blower would not be subject to any recrimination or detrimental treatment by Mitsui as a result of whistle-blowing. Additionally, Mitsui makes sure that its domestic affiliated companies are also able to use the whistle-blowing avenues (external attorneys at law and a third-party providing hotline services) designated by Mitsui in order to (i) maintain a high standard of confidentiality and (ii) enable their employees to use these avenue without uneasiness. Mitsui’s overseas offices and overseas affiliate companies also have whistle-blowing systems that were put in

place considering applicable local laws and regional characteristics. Furthermore, Mitsui prohibits treating a whistleblower disadvantageously due to the reason of the whistleblowing itself, and will thoroughly make this a known internal fact. Any cases of violation of compliance are handled strictly, including disciplinary actions in accordance with the Employment Regulations of Mitsui & Co., Ltd.

5. Specially Designated Business Management System

In response to the DPF Incident, Mitsui established the “Specially Designated Business Management System” in April 2005. Under this system, internal review of four business domains which are “Environment-related business,” “Medical, Healthcare and Bioethics-related businesses,” “Businesses with subsidy,” and “Business harboring other unusual reputation risks” is strengthened. When examining these matters, reports from the Sustainability Committee or the Environmental Societal Advisory Committee in which external experts participate as members, or opinions from other external experts will be obtained, as necessary. In addition, Mitsui appoints consultants with insights into environmental and social risk, human rights and utilize their advice for new and existing environment-related businesses as necessary.

6. Systems to secure appropriateness of operations within the corporate group

In March 2006, Mitsui established the “Mitsui & Co., Ltd. Corporate Governance and Internal Control Principles” (“Principles”). In light of other laws and regulations and to the extent reasonable, Mitsui requires its subsidiaries to develop and operate internal controls based on these Principles, and for its equity accounted investees, Mitsui coordinates with other equity participants and encourages the equity accounted investees to develop and operate similar internal controls. For internal controls to secure reliability in financial reporting, see IV.1.2. “*Internal control over financial reporting*” above. In addition, from its officers and employees, Mitsui appoints supervising officers for its affiliated companies and has them engage in their duties based on the “Rules on Delegation of Authority for Supervising Officers for Affiliated Companies.” Also, when Mitsui deploys full-time audit & supervisory board members in major affiliated companies, Mitsui selects personnel from the Internal Auditing Division rather than from related Business Units to enhance the independence of auditing.

2. Basic Views on Eliminating Anti-Social Forces

1. Mitsui reacts resolutely towards antisocial forces, and will not, as a matter of principle, conduct business with antisocial forces or with parties that have relations with antisocial forces.
2. Mitsui specifies the abovementioned principle in its “Business Conduct Guidelines”, and makes this thoroughly known to its officers and employees. To reject antisocial forces, and to make this a company-wide stance, insertion of a clause within contracts rejecting antisocial forces is encouraged, and by placing a response unit, a system enabling routine coordination with external professionals, such as police and lawyers, is established.

[Outline of Timely Disclosure System]

1. Internal structure relating to timely disclosure to capital markets

- (1) Mitsui has formulated principles and a basic policy and developed an internal structure relating to statutory disclosure, timely disclosure and other important disclosure materials and disclosing acts on an internal and external consolidated basis. We have also established the Disclosure Committee to examine highly urgent IR matters and formulate measures. The Disclosure Committee is a subordinate organization of the Corporate Management Committee. It is headed by the CFO and co-headed by CAO and CCO, and its members are the General Managers of the relevant corporate staff divisions. The Investor Relations Division, which acts as the secretariat for the Disclosure Committee, works with IR staff assigned to corporate staff divisions and business units to prepare drafts of disclosure documents and analyze points for discussion in response to directives from the Disclosure Committee.
- (2) In its Corporate Disclosure Policy, Mitsui has defined the fundamental requirements and procedures for the disclosure of information that investors need to make appropriate decisions. This policy has been posted on the Company's website.
- (3) Mitsui has established the Investor Relations Division as the unit responsible for disclosure to investors. This Division is in charge of administrative processes relating to timely disclosure and is responsible for the monitoring and management of facts, financial data, and other information that could have a material impact on investors' decisions, and for the accurate and timely disclosure of that information.

2. Facts that could have a material impact on investors' decisions

- (1) Management of information relating to timely disclosure is integrated within the Investor Relations Division, which is the unit responsible for communication with the Tokyo Stock Exchange. When disclosing important new facts, the Investor Relations Division, determines the content of the disclosure. If necessary, it first examines the information in consultation with the corporate staff divisions that make up the Disclosure Committee and consults with the Corporate Communications Division, which is responsible for interaction with the media.
- (2) If a high-level management decision is required concerning the disclosure method and timing, etc., disclosure will be carried out after deliberation by the Disclosure Committee, and, if necessary, after approval has been obtained from the Corporate Management Committee.

- (3) The Investor Relations Division is responsible for day-to-day communications among internal units in preparation for the disclosure of important information. Internal units are required to inform the Investor Relations Division about progress on important projects through the corporate organization. To align the viewpoints of the corporate organization and frontline business units, the Investor Relations Division holds regular meetings with each business unit after the publication of quarterly financial results. The purpose of these meetings is to share information about market reactions to information disclosed at the corporate or individual business unit level, and about important disclosure items going forward.

3. Information about Financial Results

Information is released each quarter after approval by the Corporate Management Committee

- (1) Management of financial information has been integrated within the Global Controller Division, and general non-financial information within the Investor Relations Division. Final responsibility for the external disclosure of Flash Reports and other information rests with the Investor Relations Division.
- (2) Before financial results are released, Flash Reports and other external disclosure documents and important disclosure items are checked by a study committee made up of the CFO and members of the Disclosure Committee.
