The corporate governance of Mitsui & Co., Ltd. (the “Company” or “Mitsui”) is described below.

I. Basic Views on Corporate Governance, Capital Structure, Corporate Profile and Other Basic Information

1. Basic Views

[Basic Corporate Governance Policy]

In structuring the corporate governance framework, Mitsui places emphasis on “improved transparency and accountability” and “the clarification of the division of roles between the oversight activities and executive activities of the management.”

For the “improved transparency and accountability,” Mitsui ensures sound supervision and monitoring of management with the view point of External Directors and External Audit & Supervisory Board Members (hereinafter referred to as the “external members”). Mitsui has also established an internal control system for disclosure so that all executives and employees fulfill their accountability to stakeholders under the principle of fair disclosure. For “the clarification of the division of roles between the oversight activities and executive activities of the management,” Mitsui delegates execution of business to Managing Officers substantially while the Board of Directors retains a supervisory role over Managing Officers’ business activities. Chief Operating Officers of 16 business units within headquarters and 3 regional business units serve concurrently as Managing Officers and engage in business operation for the consolidated group in a responsive and flexible manner.

While increasing the effectiveness of supervisory functions by having Audit & Supervisory Board Members, Mitsui implements corporate governance by maintaining an Audit & Supervisory Board system because it believes that having internal Directors who are familiar with our business practices and operations is essential to the business of a general trading company. By adopting a Committee System in which external members participate, Mitsui achieves highly effective corporate governance to secure “improved transparency and accountability” and “the clarification of the division of roles between the oversight activities and executive activities of the management.” In order to realize effective corporate governance for shareholders and other stakeholders, Mitsui has established, and maintains, the following structures:

- (a) The Board of Directors is the highest authority for execution of business and supervision, and in order to secure this function, the number of directors shall be set at an appropriate number where effective discussion is possible. As advisory committees to the Board of Directors, Mitsui also has in place the Governance Committee, the Nomination Committee and the Remuneration Committee, in which External Directors and/or External Audit & Supervisory Board Members participate as members.
- (b) The Audit & Supervisory Board Members supervise the Directors' execution of duties as an independent institution with the mandate of the shareholders. For this purpose, Audit & Supervisory Board Members carry out multi-faceted, effective audit activities such as attending important internal meetings, verifying reports and investigating our business, and take necessary measures in a timely manner.

Regarding Mitsui's basic views and policies on Corporate Governance, we published "Mitsui & Co., Ltd. Corporate Governance and Internal Control Principles" on Company's website as follows.

https://www.mitsui.com/jp/en/company/outline/governance/system/pdf/corp_gov.pdf

(Notes)

"External Director", "Audit & Supervisory Board Member" and "External Audit & Supervisory Board Member" are used in the same sense of "External Director", "*Kansayaku*" and "External *Kansayaku*" in the heading of the format of this Corporate Governance Report respectively. Further, "Independent Director" is an External Director who is unlikely to have conflicts of interest with general shareholders, as stipulated by the Tokyo Stock Exchange.

[Reasons for Non-compliance with the Principles of the Corporate Governance Code]

Mitsui complies with all Principles of the Corporate Governance Code.

[Disclosure Based on the Principles of the Corporate Governance Code]

[Principle 1.4 Cross-Shareholdings]

■ Policy related to acquisition and holding of cross-shareholdings

Mitsui defines listed shares held for reasons other than purely for investment returns as cross-shareholdings. Cross-shareholdings here include not only mutual shareholdings but also unilateral ones. These are acquired and held in accordance with the following policy.

- (1) The purpose of cross-shareholdings in investees for which the equity-method is applicable is to improve the corporate value of the investees and increase equity-method based profit and dividends to be received through participation in the management of the investees. Cross-shareholdings in companies other than equity-method applicable investees (including deemed shareholdings) will be categorized as "listed shares for general investment purposes" and regarded as a means of creating business opportunities and building, maintaining, or strengthening business and collaborative relationships.
- (2) Investments in the shares of equity-method applicable companies are implemented only in cases where the economic rationale is recognizable. At the same time, each year the Board of Directors

shall review the meaning of and policy on holding such shares, including a verification of the rationale in relation to our cost of capital, within the framework of portfolio reviews that are carried out in relation to investment assets generally, including unlisted shares. If the meaning of holding these assets has significantly declined, a policy toward withdrawal shall be set out.

- (3) When acquiring listed shares for general investment purposes, the Company shall conduct a prior stringent assessment of the probability of the investment creating business opportunities, or building, maintaining, or strengthening business and collaborative relationships. At the same time, each year, the Board of Directors shall review the meaning of and policy on holding listed shares for general investment purposes by verifying the economic rationale based on the status of dividends, business-related profits, and other related profits, in comparison to our cost of capital, and verification of qualitative aspects based on the status of and outlook for the creation of business opportunities, as well as business and collaborative relationship with each cross-shareholding investee. If as a result of this review the meaning of holding these assets has significantly declined, our policy is sell such assets thereby reducing the cross-shareholdings.

■ Result of verification at Board of Directors meeting

Details of verification by the Board of Directors concerning the cross-shareholdings as of March 31, 2020 are as follows.

Equity-method applicable investees:

With regard to every individual stock, checked if it falls under the exit criteria specified within the Company, consisting of the profitability and qualitative criteria. As a result, we confirmed the policy as to whether to hold, exit or continue to temporarily hold to watch those stock that fall under the exit criteria.

Listed shares for general investment purposes:

As far as economic rationality is concerned, confirmed that the related profit exceeds our cost of capital in about 60% of the individual stocks as a result of verification of the related profit situation, including dividends and related trading profit compared with our cost of capital vis-à-vis the amount shown in the balance sheet at the end of the term for every individual stock. At the same time, verified and confirmed the qualitative rationale for holding every individual stock. Confirmed the stocks where future sale will be considered as a result of a lessening of the rationale for holding based on both qualitative and quantitative aspects.

■ Policy on the exercise of voting rights

With respect to the exercise of voting rights of listed shares held by the Company, the content of each proposal shall be considered in relation to the management policies and business plans, etc., of the investee, and deliberation shall be conducted on a case-by-case basis by taking into consideration comprehensively from the perspectives of (1) whether or not the proposal contribute to enhancing corporate value of the investee or mutual benefit of the shareholders, and (2) the impact that the proposal may have on the enhancement of the corporate value of the Company in terms of the creation of business opportunities, and building, maintenance, and strengthening of business and collaborative relationship between the investee and the Company.

Disclosure of Policy on Determining Remuneration Amounts and Calculation Methods

The Company has established the policy for determining the remuneration, etc. of individual Directors by resolution of the Board of Directors, following deliberation by and report of the Remuneration Committee. The remuneration for Directors of the Company is comprised of basic fixed remuneration, results-linked bonuses based on important management indicators for the Company, and share performance-linked restricted stock-based remuneration as medium- to long-term incentive remuneration. From the perspective of respecting the independence of External Directors and Audit & Supervisory Board Members who are independent from business execution, the External Directors and Audit & Supervisory Board Members are not eligible for the results-linked bonuses or stock-based remuneration.

The Company's Remuneration Committee is chaired by an External (Independent) Member. The Committee discusses the remuneration system for Directors and Audit & Supervisory Board Members, and examines the appropriateness of the proportions of fixed remuneration, results-linked bonuses, and medium- to long-term incentive compensation based on trends at other companies and then reports this as well as the appropriateness of clawback provisions to the Board of Directors, among other measures, in order to emphasize transparency in the determination of Directors' and Audit & Supervisory Board Members' remuneration. Regarding the remuneration, etc. of individual Directors for the year ended March 31, 2021, after receiving the report of the Remuneration Committee, the Board of Directors has confirmed that the contents of the determined remuneration, etc. are consistent with the applicable policy and has judged that they are in line with such policy.

(1) Results-linked bonuses:

(a) Operating diverse businesses, the Company emphasizes consolidated profit for the year (attributable to owners of the parent) and Core Operating Cash Flow as common performance indicators, and also references these when determining the dividend policy. Directors' bonuses are calculated using the following formula, which is linked to these indicators.

(b) Total payment amount = (Consolidated profit for the year (attributable to owners of the parent) x 50% x 0.1%) + (Core Operating Cash Flow x 50% x 0.1%)

*Note that the upper limit for the total payment amount is set at ¥700 million and if the consolidated profit for the year (attributable to owners of the parent) is negative, i.e., loss, or if the Core Operating Cash Flow is negative, i.e., net cash outflow, this negative item will be calculated as 0.

*The actual results of each performance indicator related to the results-linked bonuses for the year ended March 31, 2021 are as follows:

Consolidated profit for the year (attributable to owners of the parent): ¥335.5 billion

Core Operating Cash Flow: ¥658.1 billion

Amount individually paid = $\frac{\text{Total amount of bonus} \times (\text{Position points} / \text{Sum of position points})$

Position	Chairman/President	Executive Vice President	Senior Executive Managing Officer	Executive Managing Officer
Points	10	7	6	5

(2) Stock-based remuneration: Share performance-linked restricted stock-based remuneration

- (a) In order to foster a heightened sense of shared value with shareholders, ordinary shares of the Company with a transfer restriction period and clawback provisions are granted to Directors. This stock-based remuneration system is a share performance-linked remuneration system for which the number of shares held by Directors (number of shares after valuation) would vary based on a comparison of the growth rates of the Company's share price and the Tokyo Stock Price Index (TOPIX). This remuneration system is intended to give Directors a heightened awareness of the need to increase the Company's corporate value by amounts greater than the growth of the stock market by taking into account not only the fluctuations in the Company's share price, but also the performance of the Company's share price compared with the stock market as a whole.
- (b) Number of shares after valuation: The number of shares after valuation is decided at the Board of Directors meeting by taking into consideration the following formula and clawback provisions after receiving advice from the Remuneration Committee.

$$\text{Number of shares after valuation} = \text{Number of shares} \times \frac{\text{Growth rates of the Company's share price}}{\text{TOPIX growth rate} \times 150\%}$$

As stated below, with respect to the remuneration for Directors and Audit & Supervisory Board Members, approvals have been given by resolutions of the General Meeting of Shareholders on the maximum amount and that the individual amounts shall be determined by the Board of Directors within their respective maximum amounts.

	Basic Remuneration		Results-linked Bonuses	Stock-based Remuneration

[Supporting System for External Directors and/or *Kansayaku*]

The external members, through the Board of Directors, the Audit & Supervisory Board and the meetings composed of all external members (hereinafter referred to as the “external member meetings”) respectively, mutually coordinate with internal audits, auditing by Audit & Supervisory Board Members and accounting audits as well as supervise and audit the internal control system. Specifically, they periodically receive reports on the following at the meeting of the Board of Directors and the Audit & Supervisory Board, respectively: results of the internal audits and internal audit plans, results of auditing by the Audit & Supervisory Board and audit implementation plans, summary of management letters by Independent Auditors, assessment results with regards to the internal control system in accordance with the Financial Instruments and Exchange Act of Japan, the operational status of compliance programs, and other matters regarding the structure and management of internal controls. At the external member meetings, External Directors, (i) Audit & Supervisory Board Members mutually exchange information and opinions regarding the activities of Fulltime Audit & Supervisory Board Members External Directors, and (ii) Audit & Supervisory Board Members and Independent Auditors mutually exchange information and opinions regarding the policy of audits. Fulltime Audit & Supervisory Board Members, at their discretion, hold a meeting to exchange opinions beforehand among the External Directors and Audit & Supervisory Board Members on certain important matters to be discussed at meetings of the Board of Directors, in order to provide External Board Members with sufficient information for effective discussion at meetings of the Board of Directors.

In addition to the above, at meetings such as meetings of the Audit & Supervisory Board, the External Audit & Supervisory Board Members coordinate with the Independent Audit & Supervisory Board Members and the Internal Auditing Division by periodically receiving reports regarding status and results of their audit activities and exchanging information and opinions.

The external members are given the following support in addition to the training shown in II.2.1 “*Corporate Governance Structure*”:

1. For External Directors, before regular and extraordinary meetings of the Board of Directors, materials on the proposals are provided and advance explanations are given.
2. For External Audit & Supervisory Board Members, company information which contributes their auditing, including summaries of regular meetings between Full-time Audit & Supervisory Board Members and staff in the Audit & Supervisory Board Member Division, are timely provided by the Full-time Audit & Supervisory Board Members and the staff. Advance distribution of materials and advance explanations are conducted regarding regular and extraordinary meetings of the Audit & Supervisory Board and of the Board of Directors.
3. For external members, Mitsui provides personal computers and tablets (hereinafter referred to as the “officer PCs”) and distributes materials for meetings of the Board of Directors in a timely manner, thereby ensuring the time to review agendas.
4. In the fiscal year ended March 31, 2021, since it is difficult and inappropriate that all Directors and Audit & Supervisory Board Members gather physically due to the spread of COVID-19, Mitsui holds

the meetings of the Board of Directors and the meetings of Audit & Supervisory Board Members as remote meetings using web conference system. Mitsui set up usage environment of such web conference system on the officer PCs and provide supports to use it in order that the Directors and Audit & Supervisory Board Members can discuss effectively even at remote meeting.

- Mitsui sets up a Board of Directors' database for use in storing information such as minutes and other materials from past meetings of the Board of Directors, and maintains a platform that enables access to such database from the officer PCs.

The method used to evaluate the effectiveness of the Board of Directors in FYE March 2021

is outlined below, together with a summary of the results.

< Evaluation Method > (Self-Evaluation)

In FYE March 2021, we evaluated the effectiveness of the Board of Directors through a self-evaluation process.

- (1) In January 2021, a survey (“the FYE 3/2021 survey”) of all 14 directors and Audit & Supervisory Board members was carried out. Topics covered included the composition and operations of the Board of Directors as well as the content of deliberations.
- (2) On February 2, 2021, all external directors and external Audit & Supervisory Board members attended an external members meeting and shared their views on the effectiveness of the Board of Directors.
- (3) The results of the FYE 3/2021 survey and the external members meeting were discussed at a Governance Committee meeting held on February 24, 2021.
- (4) Following discussions at a Corporate Management Committee meeting held on March 29, 2021, the Board of Directors discussed the report from the Governance Committee at a meeting held on April 7, 2021 and then confirmed the effectiveness evaluation for FYE March 2021.

< Items in the Survey >

Questions in the FYE 3/2021 survey were divided into the following major categories. For each question, participants were asked to provide a score using a five-point scale. Space was also provided for free comments on each item. In addition, to allow progress toward the improvement of the effectiveness of the Board of Directors to be monitored, participants were asked to indicate the level of improvement compared with the previous fiscal year on a three-point scale.

- VIII. General

< Effectiveness Improvement Initiatives in FYE March 2021 >

Based on the results of the evaluation of the effectiveness of the Board of Directors in FYE March 2020, the Board of Directors and Board of Directors Secretariat worked to address the following issues in FYE March 2021:

- (1) Further improvement of the operations of the Board of Directors

In the past, 30-minute pre-briefing sessions were held for each agenda item. However, based on the results of the effectiveness evaluation survey last year, the pre-briefing sessions were extended and enhanced, with 45 minutes allocated for each item.

Furthermore, two free discussion sessions were held in FYE March 2021 in response to calls for additional sessions. Efforts were also made to enhance the information in materials provided at Board meetings, including cash flow and IRR trends for projects affected by impairment losses, as well as progress reports on projects approved by the Board of Directors.

In their responses to the FYE 3/2021 survey, the majority of external board members gave positive evaluations in relation to further improvements in the operations of the Board of Directors. There was a comment that the pre-briefings had been enhanced. Another comment was that there was room for improvement by leveling the number of agenda items, which varied according to the meeting.

(2) Further enhancement of the effectiveness of the Board of Directors in relation to discussions on overall strategy

Based on the results of the effectiveness evaluation for the previous fiscal year, two free discussion sessions were held during FYE March 2021. The themes for the first session in November 2020 were sustainable growth strategies that reflect ESG perspectives and Mitsui & Co.'s Materiality, and the DX strategy. The theme for the second session in March 2021 was the Mitsui Engagement Survey. Both directors and Audit & Supervisory Board members took part in lively discussions in these sessions.

In the FYE 3/2021 survey, all external members provided positive evaluations of the free discussion sessions and expressed the view that these sessions again provided useful opportunities to talk about macroscopic themes, that they resulted in deeper discussions in the context of changes in social environment, and that there was more discussion about the company's broad strategic direction over the past year

(3) Clarifications of the expected roles of advisory committees

One of the views expressed during the evaluation of the effectiveness of the Board of Directors in FYE March 2020 was that expectations concerning the roles of the advisory committees in relation to external members meetings, the Governance Committee, and the Board of Directors should be clarified. Following a meeting of the Governance Committee on May 14, 2020, it was decided at a meeting of the Board of Directors on June 10, 2020 to review the functions of the Governance Committee, Nomination Committee, and Remuneration Committee and redefine the expected roles for each of these committees, by revising the Mitsui & Co., Ltd. Corporate Governance and Internal Control Principles and the Internal Regulations on Advisory Committees to the Board of Directors.

In the FYE 3/2021 survey, most external members provided positive evaluations concerning the clarification of the expected roles of advisory committees. The majority view was that the revision of the rules had resulted in greater clarity.

< Outline of Evaluation Results >

The evaluation of the effectiveness of the Board of Directors in FYE March 2021 was

confirmed on the basis of the FYE 3/2021 survey, discussions at an external members meeting, and deliberations by the Governance Committee and Board of Directors.

It was confirmed that actions had been taken to improve effectiveness in FYE March 2021 by addressing the following issues.

- Further improvement of the operations of the Board of Directors: Improvement of pre-briefing sessions, holding two free discussion sessions, enhancement of information provided in materials provided at Board meetings, including cash flow/IRR trends relating to projects affected by impairment losses, and the enhancement of progress reports on matters approved by the Board of Directors
- Further enhancements to the effectiveness of the Board of Directors in relation to discussions about overall strategy: Two free discussion sessions on the themes outlined above in FYE March 2021
- Clarification of the expected roles of advisory committees: Review of expected roles and functions through the revision of related rules
- Concerning the composition of the Board of Directors, the appointment of Director Ms. Egawa has further enhanced the diversity of the company by increasing the number of female external members.
- In relation to the operations of the Board of Directors, there was a qualitative improvement in the provision of information, including the early distribution of materials by the Board of Directors Secretariat.
- Sufficient time was provided for detailed pre-briefings in preparation for deliberations at Board meetings. There was strong awareness of corporate governance.
- During the COVID-19 crisis, meeting operations were characterized by thorough precautions against infection, with the result that it was possible to engage in free and open discussions.

Based on the preceding summary, the Board of Directors determined that an appropriate level of effectiveness was achieved in FYE March 2021. However, the Board of Directors also identified the following issue that will need to be addressed in order to achieve further improvements in effectiveness.

< Initiative toward Further Improvements in Effectiveness >

Ongoing consideration of the optimal number of directors, the ratio of internal to external members, the number of internal directors, and organizational design

The following views were expressed in the FYE 3/2021 survey, during discussions in the external members meeting, and at Governance Committee meetings.

- While the present number of directors appears to be necessary from a diversity perspective, the number is slightly too large for effective discussions.
- Concerning the ratio of internal to external directors, while the number of internal directors is high compared with the number of external directors, this is unavoidable given Mitsui & Co.'s business portfolio.

- The number of internal directors can be reduced. This is a matter that should be considered in the future.
- The Governance Committee should continue to consider organizational design, which is a fundamental aspect of governance.
- The Governance Committee should discuss issues such as the optimal number of directors, the ratio of internal to external directors, and organizational design, based on external benchmarks, such as trends in other companies.

There will be further deliberations and discussions, led by the Governance Committee, concerning the optimal number of directors, the ratio of internal to external directors, the number of internal directors, and organizational design. This process will take into account the views outlined above, and trends in other companies.

The Board of Directors will continue its efforts to achieve sustainable improvement in Mitsui & Co.'s corporate value by maintaining and enhancing its effectiveness, including the aspects outlined above, and by providing effective supervision of management.

(b) Audit & Supervisory Board Members

(i) Status of Audit conducted by the Audit & Supervisory Board

Organization, personnel:

- As of the issuance of this report, there are five Audit & Supervisory Board Members, including two Full-time Audit & Supervisory Board Members and three External Audit & Supervisory Board Members (including one female External Audit & Supervisory Board Member, and the percentage of female Audit & Supervisory Board Member is 20%). The Audit & Supervisory Board has designated Mr. Kimiro Shiotani and Mr. Kimitaka Mori as Audit & Supervisory Board Members who have considerable expertise in finance and accounting. Mr. Kimiro Shiotani joined Mitsui in 1984. Before being elected as Audit & Supervisory Board Member in 2019, he had worked in the field of accounting and was appointed as General Manager of Segment controller Division in 2012, and as Managing Officer, General Manager of Accounting Division in 2015. Mr. Kimitaka Mori had been working in the field of corporate accounting over the years as a certified public accountant, and holding important positions in that field such as the former Chairman and President of Japanese Institute of Certified Public Accountants.
- Mitsui has entered into agreements with each Audit & Supervisory Board Member respectively limiting their liability as Audit & Supervisory Board Members to legally designated limits, pursuant to Article 427, Paragraph 1 of the Companies Act of Japan.
- We set up the Audit & Supervisory Board Member Division to assist in the performance of the duties of the Audit & Supervisory Board Members, and assign to the Division at least three full-time employees with the appropriate knowledge and abilities necessary for this work.

Activities of the Audit & Supervisory Board:

- A meeting of the Audit & Supervisory Board Members is regularly held prior to a meeting

of the Board of Directors and whenever necessary. In the year ended March 31, 2020, 24 meetings were held. Full-time Audit & Supervisory Board Members participated in all 17 Audit & Supervisory Board meetings held after their taking position as of June 20, 2019

- Pursuant to laws and regulations, the Articles of Incorporation and the provision of the Rules of the Audit & Supervisory Board, the Audit & Supervisory Board receives reports, deliberates and/or makes resolutions as to important matters in auditing. Regarding audits of consolidated group companies, because affiliated companies in Mitsui's consolidated group vary widely in terms of location, business areas, and growth stages, priority is given, during the formulation of audit policies, to checks concerning the assimilation of the Mitsui & Co. Group Conduct Guidelines as the foundation for the development and operation of internal control systems, and the performance of business activities in accordance with those guidelines. We also respond to change in the external environment for business activities by basing audit policies on various perspectives, including climate change and new work styles. Additionally, to conduct effective and efficient audits, the Audit & Supervisory Board coordinates closely with the Independent Auditors and the Internal Auditing Division. Another priority is the development of closer collaboration with the organizations, officers, and employees (such as audit & supervisory board members of affiliated companies, accounting auditors, and internal audit organizations) responsible for supervision of the development and operation of internal control systems in affiliated companies.
- The main items considered and discussed at the Audit & Supervisory Board are as following:
 - Audit policies, audit plans and work assignment;
 - Assessment of Independent Auditor;
 - Audit activities conducted by full-time Audit & Supervisory Board Members;
 - Major issues and due process relating to matters to be discussed at the Board of Directors meetings;
 - Major issues and resolutions relating to the internal control system on global group basis; and
 - Monitoring of progress on discussions between the Company and the Independent Auditor about various issues including "Key Audit Matters".
- Based on yearly audit results, the views of the Audit & Supervisory Board and any issues identified are compiled into recommendations to the Board of Directors. This is followed by an exchange of opinions at the meeting of the Board of Directors. The results of this process are disseminated within the Company.
- Visits to the locations of frontline business activities and communication with the group employees who are active in those locations are an important part of our audit activities. However, the COVID-19 pandemic has imposed severe constraints on corporate activities, and we are therefore trialing alternative audit procedures for use when these audit activities are not possible. We have started to examine our audit plans based on the results of these trials.
- An evaluation of the effectiveness of the Audit & Supervisory Board was conducted

through individual interviews with all external Audit & Supervisory Board Members, an exchange of views at a meeting of the Audit & Supervisory Board, and self-evaluations. The results indicate that an appropriate level of effectiveness is generally being achieved. On the other hand, we recognized the need for efforts in some areas, such as the development of closer collaboration with the audit & supervisory board members of affiliated companies, in order to achieve further improvement in effectiveness.

Main Activities of Audit & Supervisory Board Members

- Each Audit & Supervisory Board Member has a duty to audit the following issues; (i) in the area of business auditing, execution of duties by Directors, decision-making processes at the Board of Directors and others, and the status of operation and improvement of the internal control systems, and (ii) in the area of financial audit, the independence of the Independent Auditors, effectiveness of the internal control systems, system of financial reporting, accounting policies and processing of financial information, audit of financial statements, reviews and reports from the Independent Auditors, and the system of disclosure.
- Audit & Supervisory Board Members attend the meeting of the Board of Directors and audit the procedure of the meeting and the contents of resolutions as well as other issues, and proactively express their opinions. Full-time Audit & Supervisory Board Members attend important internal meetings and committees, including the Corporate Management Committee.
- All Audit & Supervisory Board Members have discussions with the Chairman of the Board of Directors and the President & Chief Executive Officer, respectively, on a periodic basis. Full-time Audit & Supervisory Board Members receive reports and exchange opinions at individual meetings with Directors and Managing Officers, as well as regular meetings with the Directors in charge of Corporate Staff Units and general managers in Corporate Staff Units. Fulltime Audit & Supervisory Board Members receive reports relating to regular internal audits from the Internal Auditing Division, in principle attend all of the feedback sessions on regular internal audits by the Internal Auditing Division, and deliver their opinions and advices to audited organizations.
- The Audit & Supervisory Board has designated some of the affiliated companies both domestic and overseas as “Affiliated Companies to be Monitored Designated by the Audit & Supervisory Board”. The Audit & Supervisory Board Members conduct auditing on the management status of Mitsui’s subsidiaries through visits to these designated affiliate companies and major subsidiaries as well as through cooperation with audit & supervisory board members at subsidiaries. In addition to the above, The Audit & Supervisory Board Members receive reports relating to the status of audits and other matters, including the status of quarterly review, at the monthly meetings with the Independent Auditors. At the meetings, the participants exchange opinions about audit environment and other matters, including cooperative framework for the accounting audit within the Company.

- (ii) Appointment standard for Audit & Supervisory Board Members and process of appointment

Mitsui selects candidates for positions of Audit & Supervisory Board Member giving consideration to the following appointment standard for Audit & Supervisory Board Members. For the selection of candidates for positions of Audit & Supervisory Board Member, Directors prepare a proposal for election through consultation with Audit & Supervisory Board Members and obtain agreement of the Audit & Supervisory Board in advance. The Audit & Supervisory Boards deliberates on the advisability of agreeing with the proposal for election of Audit & Supervisory Board Members to be submitted to the General Meetings of Shareholders by the Board of Directors.

- With respect to internal Audit & Supervisory Board Members, person well-acquainted with actual conditions of the company and possessing capability to conduct appropriate audits

(iii) Internal auditing

- Based on the order or approval of the President and Chief Executive Officer, for the purpose of contributing to the effective achievement of management goals, the Internal Auditing Division evaluates how internal control is present and functioning with emphasis on the effectiveness and efficiency of operations, the reliability of financial reporting, compliance with laws and regulations, as well as safeguarding of Company assets. The adequacy and effectiveness of each process in risk management, control (any action taken by the management toward the achievement of the established goals) and governance (processes and structures implemented by the management to inform, direct, manage and monitor the activities of the organization toward the achievement of its objectives) within each organizational unit shall also be evaluated, and suggestions and proposals shall be made for their improvement.
- In order to ensure the independence and objectivity of internal audits, we have the Internal Auditing Division directly under the rule of the President and Chief Executive Officer. The composition of the personnel in the division as of March 31, 2020, is as follows: of a total of 77 people, which includes one General Manager, 40 internal auditors (including 24 re-employed retired contract employees), 24 members in charge of audits, and 12 staff members; 55 people are stationed in the Internal Auditing Division in the Head Office, 6 people are stationed in Internal Auditing Offices overseas, 3 people are stationed in the Internal Auditing Department within Business Supporting Units, and 13 people are stationed in subsidiaries.
- In the regular audits which cover Mitsui, Overseas Offices, Overseas Trading Subsidiaries, and other subsidiaries, internal auditors carry out independent and objective evaluations, pursuant to the rules on internal audits, etc., with an emphasis on risk management, effectiveness of management and operations, compliance, and appropriate financial reporting. In addition, the following audits are implemented as internal audits: cross-organizational and cross-functional audits by target and item, such as issues involving multiple organizations and business processes or security trade control systems, and

extraordinary examinations to get a whole picture of such events that caused or could cause irregular economic losses or that jeopardized or could jeopardize the corporate trust, in order to identify the responsibility and recommend measures to clarify causes as well as to prevent recurrence. The Internal Auditing Division as an independent department compiles and checks the assessment of the entity-wide internal control regarding the credibility of financial reports, pursuant to the Financial Instruments and Exchange Act of Japan. The final results are reported to the below- mentioned J-SOX Committee.

- For each fiscal year, the internal auditing policy and the internal auditing plan go through the approval process by the President and Chief Executive Officer. Internal audits are implemented either with or without advance notice to the target organization. The internal auditors provide feedback on the results of the internal audit to the organization before preparing the internal audit report and carry out a full exchange of opinions on their suggestions. The audit results are reported to the President and Chief Executive Officer. The reports from the organization on the implementation status of improvements regarding the issues identified are requested and are reevaluated.

(iv) Auditing of financial statements

- For the year ended March 31, 2020, the certified public accountants executing audits on our financial statements are the following four people, who all belong to Deloitte Touche Tohmatsu LLC: Shuichi Morishige, Takashi Kitamura, Takenao Ohashi, and Yoshio Oka. The period successively involved in the audit by Deloitte Touche Tohmatsu LLC is 47 years. The number of assistants involved in auditing work is 113 people as of March 31, 2020, and this number is comprised of 36 certified public accountants, 20 members of the Japanese Institute of Junior Accountants, and 57 others.
- Rotations of the partners were conducted properly. A partner does not serve the Company for more than seven consecutive fiscal years. In addition, a lead audit engagement partner does not serve the Company for more than five consecutive fiscal years.
- In order to secure prompt financial closing and reliability, the auditing work of Mitsui and its consolidated subsidiaries are in principle entrusted solely to Deloitte Touche Tohmatsu. Mitsui's Independent Auditors implement auditing under the Companies Act of Japan and the Financial Instruments and Exchange Act of Japan as well as auditing of the consolidated financial statements in English.

2. Framework for internal control and execution of business activities

- Ultimate responsibility for execution of business operations lies with the President and Chief Executive Officer. The President and Chief Executive Officer delegates authority to the Chief Operating Officers of the business units and regional business units, who, in turn, report to the President and Chief Executive Officer. The Corporate Management Committee is organized for deliberating the basic policies and important matters relating to the overall management. The Committee consists of the Chairman of the Board of Directors, President and Chief Executive Officer (the committee chair), the Directors in charge of Corporate Staff Units, and Representative Directors or Managing Officers nominated by the President and Chief Executive Officer. The Corporate Management Committee is held weekly in principle. Matters referred to the Corporate Management

Committee meeting are determined by the President and Chief Executive Officer, taking into consideration discussions among the Committee members.

- As mentioned above, the Internal Auditing Division, the division positioned directly under the President and Chief Executive Officer, examines the status of development and implementation of the internal control of Mitsui. With the delisting from NASDAQ in April 2011 and the termination of SEC registration in July 2011, Mitsui has implemented the internal control framework based on Japanese regulation from the year ended March 31, 2012. Even after the transition, Mitsui maintains its internal control system by positioning the internal control as the structure by which the management controls the executive body, aiming for: (1) “Improvement of effectiveness and efficiency of operations,” (2) “Compliance with accounting standards and securing reliability of financial reporting,” (3) “Compliance with laws, rules that are equivalent to the laws, and observance of management philosophy and company rules including all codes of conduct which reflect this philosophy,” and (4) “The safeguarding of company assets;” and consists of: “control environment,” “risk assessment,” “control activities,” “information and communication,” “monitoring,” and “response to IT.” These objectives and components are as stated in the basic framework designated in “Standards and Practice Standards for Management Assessment and Audit concerning Internal Control Over Financial Reporting,” issued by the advisory board to the Commissioner of the Financial Services Agency.
- Mitsui has established major committees pertaining to the execution of business and implementation of internal control as follows, and is taking measures to respond to a wide range of risks and forms of businesses, which continue to increase and diversify. The efforts made by the committees regarding execution of business activities and internal controls in the year ended March 31, 2020 are as follows:

Compliance Committee	As an organization under the Corporate Management Committee, this committee, with an attorney at law from outside Mitsui participating as an observer, develops, maintains, and improves the effectiveness of the compliance structure. In order to improve the awareness and knowledge of compliance issues among its officers and employees and instill integrity, Mitsui distributed a handbook to all the employees, and conducted various compliance training sessions. Further, Mitsui established the With Integrity Month with the theme of “thinking about integrity”, carried out various activities such as seminars, exchanges of opinions and information, and so on. The compliance awareness survey was also conducted at Mitsui and its major affiliated companies located in Japan, in order to assess the awareness level of the group. Mitsui has also assisted these affiliated companies by holding seminars, distributing the “Compliance Handbook for Mitsui Group companies” and also offering “Guidelines on the Establishment of Compliance Systems at Affiliated Companies” to contribute to the development and operation of an effective compliance system.. Furthermore, in order to further strengthen the detective and control, Mitsui encourages the use of the whistle-blowing system through continuous messaging from the CCO and other officers, displaying posters in office spaces, and releasing a video introducing the whistle-blowing system on the intranet. In addition, in the year ended March 31, 2020, Mitsui increased the number of countries where the Global Group Hotline is applicable, which is a special whistleblowing hotline for reporting and seeking advice for incidents that breach the laws of Japan or other countries

IV. Matters Related to the Internal Control System

1. Basic Views on Internal Control System and the Progress of System Development

Regarding internal control system and the related units, see II.2.2 “*Framework for internal control and execution of business activities*”. In the construction of internal control processes, aiming to achieve the above mentioned objective of the internal control process – “Improvement of effectiveness and efficiency of operations,” “Compliance with accounting standards and securing reliability of financial reporting,” “Compliance with laws, rules that are equivalent to the laws, and observance of management philosophy and company rules including all codes of conduct which reflect this philosophy,” and “The conservation of company assets” – the following systems are implemented.

1. Risk management system

Risks arising from business activities are monitored and managed by Chief Operating Officers of business units and regional business units within their authorization delegated from the management. Risks associated with our business include quantitative risks such as credit risk, market risk, business risk arising from subsidiaries’ businesses and country risk, as well as qualitative risks such as compliance risk and operational risk. Measures taken by each business unit to manage quantitative risks include setting of position limits and loss-cut limits as well as monitoring of positions by divisions with relevant expertise. For the management of qualitative risks, the business units are obligated to observe related internal regulations. When a business unit or a regional business unit takes risks greater than the scope of authority granted to the Chief Operating Officers, it is necessary to obtain approval of the Corporate Management Committee or a Representative Director in charge, or a Senior Managing Officer in charge, depending on the importance of the case, in accordance with the standards of the internal approval system.

Furthermore, as stated in II.2.1. “Corporate Governance Structure” as committees responsible for business execution and the internal control system, organizations such as the Portfolio Management Committee, the Internal Controls Committee, the Sustainability Committee, and the Crisis Management Headquarters establish and develop the risk management structures and handle significant risks. These committees consist of Managing Officers and the General Managers of Corporate Staff Units. With respect to the risks in the fields they are in charge of, each division of the Corporate Staff Units is responsible for surveillance of the whole Company’s positions, control within the prescribed range of their authority, and supporting the relevant Directors and Managing Officers.

2. Internal control over financial reporting

As a result of the termination of the SEC registration, Mitsui implements the internal control framework as stipulated in the Financial Instruments and Exchange Act of Japan from the year ended March 2012. In addition to the Company-wide discipline, Mitsui has been conducting self-assessment by units subject to evaluation and testing by an independent division concerning the effectiveness of accounting and financial closing controls, IT controls, and business process level controls. After comprehensively assessing the above, Mitsui management confirmed that internal control over financial reporting is effective for the year ended March 31, 2020.

3. Internal controls regarding construction and management of information systems and information

security

“Information Technology (IT) policy” is declared as a basic policy for IT utilization to promote further awareness raising of employees and enhancement of IT governance. The important principles for our global group information strategy are formulated in line with the corporate management policy through the discussions at the Information Strategy Committee established pursuant to the “Rules of Information Strategy Committee.” Under the system centered around the Information Strategy Committee, we are enhancing the system of internal control including management of various possible risks such as information leakage risks through maintenance of the following rules, necessary in light of development and operation of information systems and information security.

“Rules on Information System Management”: rules on the process of procurement, introduction and operation of Information assets

“Rules on IT Security”: code of conduct for the system supervisory divisions regarding IT security

“Rules on Information Management”: basic policies in terms of information risk management system and information management

“Rules on Protection of Personal Information”: rules for the handling of personal information required for business execution (Applied only in Japan)

“Rules on Cyber Security Countermeasures”: rules for preventive measures against cyber-attacks and emergency countermeasures in the event of incident

4. Compliance structure

In addition to the Compliance Committee, (see II.2.1 “*Corporate Governance Structure*”), chaired by the Chief Compliance Officer, Mitsui implements a compliance management system within the regular line of management at business division and department level. Further, Compliance Supervising Officers are designated at domestic and overseas units, branch offices and others.

Mitsui has set forth the “Business Conduct Guidelines for Employees and Officers of Mitsui & Co., Ltd.” (“Guidelines”) and has equivalent business conduct guidelines in place at its subsidiaries. Mitsui is striving to improve observance of the Guidelines through continuous monitoring and reviewing. Additionally, to further clarify our basic approach toward integrity and compliance on a global group basis, we have put together the “Mitsui & Co. Group Conduct Guidelines” to be shared by Mitsui & Co. Group companies. Please refer to the “Business Conduct Guidelines for Employees and Officers of Mitsui & Co., Ltd.” or “Mitsui & Co. Group Conduct Guidelines” released on the Mitsui’s website. Mitsui has a total of eight whistle-blowing avenues in place, including those involving an external attorney at law and a third-party providing hotline services. Pursuant to the Whistleblower Protection Act, Mitsui made it clear that a whistle-blower would not be subject to any recrimination or detrimental treatment by Mitsui as a result of whistle-blowing. Additionally, Mitsui makes sure that its domestic affiliated companies are also able to use the whistle-blowing avenues (external attorneys at law and a third-party providing hotline services) designated by Mitsui in order to (i) maintain a high standard of confidentiality and (ii) enable their employees to use these avenue without uneasiness. Mitsui’s overseas offices and overseas affiliate companies also have whistle-blowing systems that were put in place considering applicable local laws and regional characteristics. Furthermore, Mitsui prohibits treating a whistleblower disadvantageously due to the reason of the whistleblowing itself, and will

thoroughly make this a known internal fact. Any cases of violation of compliance are handled strictly, including disciplinary actions in accordance with the Employment Regulations of Mitsui & Co., Ltd.

5. Specially Designated Business Management System

In response to the DPF Incident, Mitsui established the “Specially Designated Business Management System” in April 2005. Under this system, internal review of four business domains which are “Environment-related business,” “Medical, Healthcare and Bioethics-related businesses,” “Businesses with subsidy,” and “Business harboring other unusual reputation risks” is strengthened. When examining these matters, reports from the Sustainability Committee or the Environmental Societal Advisory Committee in which external experts participate as members, or opinions from other external experts will be obtained, as necessary. In addition, Mitsui appoints consultants with insights into environmental and social risk, human rights and utilize their advice for new and existing environment-related businesses as necessary.

6. Systems to secure appropriateness of operations within the corporate group

In March 2006, Mitsui established the “Mitsui & Co., Ltd. Corporate Governance and Internal Control Principles” (“Principles”). In light of other laws and regulations and to the extent reasonable, Mitsui requires its subsidiaries to develop and operate internal controls based on these Principles, and for its equity accounted investees, Mitsui coordinates with other equity participants and encourages the equity accounted investees to develop and operate similar internal controls. For internal controls to secure reliability in financial reporting, see IV.1.2. “*Internal control over financial reporting*” above. In addition, from its officers and employees, Mitsui appoints supervising officers for its affiliated companies and has them engage in their duties based on the “Rules on Delegation of Authority for Supervising Officers for Affiliated Companies.” Also, when Mitsui deploys full-time audit & supervisory board members in major affiliated companies, Mitsui selects personnel from the Internal Auditing Division rather than from related Business Units to enhance the independence of auditing.

2. Basic Views on Eliminating Anti-Social Forces

1. Mitsui reacts resolutely towards antisocial forces, and will not, as a matter of principle, conduct business with antisocial forces or with parties that have relations with antisocial forces.
2. Mitsui specifies the abovementioned principle in its “Business Conduct Guidelines”, and makes this thoroughly known to its officers and employees. To reject antisocial forces, and to make this a company-wide stance, insertion of a clause within contracts rejecting antisocial forces is encouraged, and by placing a response unit, a system enabling routine coordination with external professionals, such as police and lawyers, is established.

1. Internal structure relating to timely disclosure to capital markets

- (1) Mitsui has formulated principles and a basic policy and developed an internal structure relating to statutory disclosure, timely disclosure and other important disclosure materials and disclosing acts on an internal and external consolidated basis. We have also established the Disclosure Committee to examine highly urgent IR matters and formulate measures. The Disclosure Committee is a subordinate organization of the Corporate Management Committee. It is headed by the CFO and co-headed by CAO and CCO, and its members are the General Managers of the relevant corporate staff divisions. The Investor Relations Division, which acts as the secretariat for the Disclosure Committee, works with IR staff assigned to corporate staff divisions and business units to prepare drafts of disclosure documents and analyze points for discussion in response to directives from the Disclosure Committee.
- (2) In its Corporate Disclosure Policy, Mitsui has defined the fundamental requirements and procedures for the disclosure of information that investors need to make appropriate decisions. This policy has been posted on the Company's website.

This Division is in charge of administrative processes relating to timely disclosure and is responsible for the monitoring and management of facts, financial data, and other information that could have a material impact on investors' decisions, and for the accurate and timely disclosure of that information.

2. Facts that could have a material impact on investors' decisions

- (1) Management of information relating to timely disclosure is integrated within the Investor Relations Division, which is the unit responsible for communication with the Tokyo Stock Exchange. When disclosing important new facts, the Investor Relations Division, determines the content of the disclosure. If necessary, it first examines the information in consultation with the corporate staff divisions that make up the Disclosure Committee and consults with the Corporate Communications Division, which is responsible for interaction with the media.
- (2) If a high-level management decision is required concerning the disclosure method and timing, etc., disclosure will be carried out after deliberation by the Disclosure Committee, and, if necessary, after approval has been obtained from the Corporate Management Committee.

(3) The Investor Relations Division is responsible for day-to-day communications among internal units in preparation for the disclosure of important information. Internal units are required to inform the Investor Relations Division about progress on important businesses through the corporate organization. To align the viewpoints of the corporate organization and frontline business units, the Investor Relations Division holds regular meetings with each business unit after the publication of quarterly financial results. The purpose of these meetings is to share information about market reactions to information disclosed at the corporate or individual business unit level, and about important disclosure items going forward.

Information is released each quarter after approval by the Corporate Management Committee and report to the Board of Directors.

Final responsibility for the external disclosure of Flash Reports and other information rests with the Investor Relations Division.
