1. Qualitative Information on Consolidated Financial Results for the Full Year

(1) Explanation of operating results

In the current consolidated fiscal year (May 16, 2021 to May 15, 2022), the Japanese economy continued to face a severe situation with restrictions on socio-economic activities due to the Declaration of a State of Emergency and the intermittent issuance of priority measures to prevent the spread in various parts of Japan, including Hokkaido, in response to the spread of COVID-19. Also, despite the trend toward normalization of socioeconomic activities, the future economic outlook remains uncertain due to concerns about the re-expansion of the COVID-19 disease, the tense situation in Ukraine, and the impact of rising oil and raw material prices on consumer spending.

In the drugstore industry, in which our Group mainly operates, while the demand for masks and hygiene-related products remained strong due to the impact of the COVID-19 infection, it was affected by a reactionary decline in hoarding demand, which surged in the same period of the previous year. The digital shift by consumers also continues to progress, as they are increasingly using cashless payment methods due to their growing preference for contactless transactions. Moreover, the business environment is undergoing drastic changes, including a decline in demand for cosmetics due to lifestyle changes such as the popularization of remote work, a decrease in demand for common cold remedies as infection prevention measures take hold, the disappearance of inbound demand, intensifying competition across industry boundaries and moves to reorganize the industry.

Under such circumstances, while implementing infection prevention measures and thorough hygiene management, our Group provided workplace COVID-19 vaccinations and continued to operate stores in order to fulfill our role as a social infrastructure for local communities and supplier of products in the region. We also provide vaccination support such as dispatching pharmacists to some areas in Hokkaido. In addition, on December 17, 2021, based on the view that it is essential for the Company to enhance its business value and achieve sustainable growth and medium- to long-term corporate value enhancement, we selected the Prime Market in the new market segment of the Tokyo Stock Exchange, Inc. and submitted a plan to comply with the listing maintenance standards for the new market segment.

Under the theme of "evolving into a regional integrated lifestyle group" in the medium-term management plan ending in May 15, 2026, our Group is pursuing three growth strategies (integrated lifestyle store strategy, regional platform strategy, and collaboration strategy) and an organizational strategy.

The integrated lifestyle store strategy includes expansion of the number of stores that provide fresh foods, which is part of our line-robbing efforts to expand our product categories, and provision of lifestyle services such as continuous in-store nutritional consultation sessions with nutritionists in an attempt to create stores that are supported by local residents.

The regional platform strategy includes the continuously growing "EZOCA" ecosystem centered on Hokkaido's common point card "EZOCA," the members of which surpassed 2 million in August 2021. The number of "EZOCA" partner stores expanded to 747 stores with 164 companies. "Esashi EZOCA" was launched as part of the initiatives based on a comprehensive cooperation agreement with Esashi Town. A portion of the purchase amount will be donated to the town, aiming to contribute to the revitalization of the local economy. Together with the town, we are also engaged in a MaaS demonstration experiment to maintain and secure public transportation, aiming to establish a sustainable service by utilizing data acquired from the Esashi EZOCA.

The collaboration strategy includes a franchise store agreement with the daily necessities division of COOP SAPPORO store business which was concluded in May 2021 under the comprehensive business alliance. This agreement will lead to improved convenience for our customers, members, and other residents of Hokkaido through the supply of more favorable products. We also concluded various agreements with the city of Hakodate, Taiki Town and Sapporo University, aiming to contribute to the revitalization of the region, the improvement of services for residents, and the resolution of social issues.

In terms of organizational strategy, we established a D&I Committee in order to create an environment in which diverse human resources can play an active role, and are actively promoting health management through the establishment of a Chief Health Officer (CHO) and the enactment of the Satudora Group Health and Productivity Management Declaration. In addition, we have identified

material issues (materiality) in order to establish our Group's sustainable business operations and to contribute to the sustainability of society by positioning them as the foundation for advancing our management strategies.

As a result of the above, net sales were 82,905 million yen (down 0.4%, or 335 million yen, year on year), operating profit was 747 million yen (up 16.7%, or 106 million yen, year on year), ordinary profit was 793 million yen (up 30.5%, or 185 million yen, year on year), and profit attributable to owners of parent was 316 million yen (down 44.9%, or 257 million yen, year on year).

As a side note, effective from the beginning of the current consolidated fiscal year, the Company has adopted the "Accounting Standard for Revenue Recognition" (ASBJ Statement No.29, March 31, 2020), etc. Details are provided in "3. Consolidated financial statements and notes, (5) Consolidated financial statements and notes (Changes in accounting policies)".

An overview of the segment performance is as follows.

<Retail Business>

We operate a chain of drugstore-format stores aimed at becoming a dominant player primarily in Hokkaido, as well as dispensing pharmacies and inbound format stores in tourist areas and other locations which many foreign visitors to Japan frequent. On the sales front, we aim to promote a low-price strategy centered on Everyday Same Low Price (ESLP) in order to gain more customer support and to improve operational efficiency by leveling work operations. We also aim to expand product categories by strengthening line robbing, including fresh foods. In addition, we are working to improve the quality and speed of decision-making through the area divisional organization and to promote digital marketing with official apps. As for dispensing pharmacies, in addition to the operation of near hospital pharmacies, we have also established them within drugstores. At the same time, we are working to provide lifestyle services such as fitness businesses and specific health guidance by registered dietitians.

Thanks to the patronage of our customers and the support of our stakeholders, Sapporo Drugstore Co., Ltd. celebrated its 50th anniversary since the opening of its first store. The company is planning and holding a fair to commemorate the 50th anniversary and making efforts to be the most familiar and beloved company by staying close to the lives of the community for another 50 years as well.

During the consolidated fiscal year under review, the special demands for hygiene-related products, which occurred in the same period of the previous fiscal year, subsided. On the other hand, in response to the growing need for one-stop shopping, the number of customers decreased due to a decline in the frequency of customer visits. Net sales in the drugstore format increased year on year, excluding the impact of the adoption of the revenue recognition standard, as a result of a net increase in the number of stores, in addition to an increase in the price per customer due to an increase in the number of items purchased and other factors. In terms of the inbound-format, sales continued to be marginal due to the slowdown in the number of foreign visitors to Japan. As for dispensing pharmacies, amid a trend of eased restraint on visits to medical institutions during the COVID-19, net sales grew year on year, partly due to the increased sales from the dispensing pharmacies within a drugstore which opened in the previous fiscal year.

The status of store openings and closures is as shown in the table below. (Status of store openings and closures)

Store classification	Format classification	As of May 15, 2021	Openings	Closures	As of May 15, 2022
Democratica	Drugstore format	171 stores	7 stores	3 stores	175 stores
Drugstores	Inbound format	17 stores	-	3 stores	14 stores
Pharmacies	Near hospital pharmacies	10 stores	-	-	10 stores
Other stores	The Kurashi Store of Hokkaido	2 stores	-	-	2 stores
Total		200 stores	7 stores	6 stores	201 stores

As a result of the above, sales in the retail business segment amounted to 82,051 million yen (down 0.9%, or 709 million yen year on year), and segment profit amounted to 659 million yen (up 11.7%, or 68 million yen year on year).

<IT Solutions Business>

Based on the technology developed for the Group, we are engaged in the sale of POS applications and other products that aim to solve issues from the user's point of view.

Net sales in the IT Solutions business segment amounted to 157 million yen (up 47.9%, or 50 million yen year on year), and segment profit amounted to 34 million yen (up 78.5%, or 15 million yen year on year).

<Other Businesses>

Our Group is engaged in the regional marketing business that utilizes the Hokkaido common point card "EZOCA", payment service business and the operation of programming schools for elementary and junior high school students, and information provision services for domestic and overseas companies looking for solutions to issues on the theme of retail and communities. As of the end of April 2022, the number of members of "EZOCA," Hokkaido's common point card, which is our Group's strength, surpassed 2 million. In the payment service business, cashless payment targeted at inbound customers was sluggish due to the disappearance of inbound demand, but domestic cashless payment expanded due to the increased needs for contactless payment for infection prevention.

Net sales in other business segment amounted to 1,069 million yen (up 43.8%, or 325 million yen year on year), and segment profit amounted to 6 million yen (a segment loss of 22 million yen in the same period of the previous fiscal year, an increase of 28 million yen year on year).

(2) Explanation of financial position

(Assets)

Current assets at the end of the current consolidated fiscal year were 20,069 million yen, an increase of 1,802 million yen from the end of the previous consolidated fiscal year. This was mainly due to increases of 317 million yen in accounts receivable, 363 million yen in merchandise, and 730 million yen in accounts receivable-other. Non-current assets amounted to 21,329 million yen, an increase of 1,299 million yen from the end of the previous consolidated fiscal year. This was mainly due to an increase of 781 million yen in property, plant and equipment and 263 million yen in leasehold and guarantee deposits.

As a result, total assets were 41,398 million yen, an increase of 3,099 million yen from the end of the previous consolidated fiscal year. (Liabilities)

Current liabilities at the end of the current consolidated fiscal year were 18,366 million yen, an increase of 1,748 million yen from the end of the previous consolidated fiscal year. This was mainly due to an increase of 699 million yen in accounts payable-trade, 638 million yen in current portion of long-term borrowings, and 849 million yen in accounts payable-other. Non-current liabilities amounted to 14,143 million yen, an increase of 1,134 million yen from the end of the previous consolidated fiscal year. This was mainly due to an increase in long-term borrowings of 585 million yen.

As a result, total liabilities were 32,510 million yen, an increase of 2,882 million yen from the end of the previous consolidated fiscal year. (Net assets)

Total net assets at the end of the current consolidated fiscal year were 8,888 million yen, an increase of 216 million yen from the end of the previous consolidated fiscal year. This was mainly due to a decrease of 128 million yen in retained earnings due to dividends of surplus, and also an increase of 316 million yen due to profit attributable to owners of parent.

As a result, the equity ratio was 21.2% (22.5% at the end of the previous consolidated fiscal year).

(3) Overview of current fiscal year's cash flows

The balance of cash and cash equivalents (hereinafter referred to as "capital") for the current consolidated fiscal year was 2,957 million yen.

The status of each cash flow and its factors in the current consolidated fiscal year are as follows.

(Cash flows from operating activities)

Capital obtained as a result of operating activities amounted to 1,282 million yen (acquired 3,372 million yen, in the same period of the previous fiscal year). This was mainly due to factors such as profit before income taxes of 431 million yen, depreciation and amortization of 1,203 million yen, an increase in trade payables of 699 million yen, as well as an increase in trade receivables of 317 million yen and increase in inventories of 335 million yen.

(Cash flows from investing activities)

Capital used for investing activities amounted to 2,235 million yen (acquired 1,201 million yen, in the same period of the previous fiscal year). This was mainly due to expenditures of 1,884 million yen for the purchase of property, plant and equipment and 514 million yen for payments for leasehold and guarantee deposits.

(Cash flows from financing activities)

Capital obtained as a result of operating activities amounted to 1,272 million yen (expenditures of 3,394 million yen, in the same period of the previous fiscal year). This was mainly due to a net increase of 200 million yen in short-term borrowings, proceeds from long-term borrowings of 1,600 million yen, repayment of long-term borrowings of 375 million yen, and cash dividends paid of 128 million yen.

(4) Future outlook

The Japanese economy for the coming fiscal year is expected to pick up due to the effects of various government policies, although the impact of COVID-19 is uncertain. On the other hand, the economic outlook is expected to remain uncertain due to geopolitical risks from the situation in Ukraine and the rising prices of crude oil and raw materials.

As for the environment surrounding our Group, while the drugstore industry's market size is expanding due to the aggressive opening of new stores and expansion of product lineups by various companies, the business environment is expected to remain severe due to competition among existing companies to open new stores and consolidation of oligopoly through M&As. We also expect that the growing requirements for one-stop shopping and cashless payment will continue.

Under these circumstances, in the coming consolidated fiscal year, we will strengthen the earnings base of our core retail business by opening new stores, expanding the handling of fresh food, and pursuing ESLP, in order to "evolve into a regional integrated lifestyle group," the theme of our medium-term management plan ending May 15, 2026. We will also expand our business domain from a retailer that only "sells goods" to a lifestyle services provider that provides "goods × services" by expanding the EZOCA ecosystem, selling cloud POS and EZOCA-related data externally, and further expanding cashless payment services, etc. We will strive for the growth of the entire group while differentiating ourselves from our competitors. We will also work to strengthen partnerships with COOP SAPPORO, local governments and companies, and promote digital marketing. Furthermore, we expect a gradual recovery in inbound demand.

Based on the above, for the coming fiscal year, we forecast consolidated net sales of 91,400 million yen, operating profit of 1,200 million yen, ordinary profit of 1,200 million yen, and profit attributable to owners of parent of 700 million.

(5) Material events related to going concern assumptions

Not applicable.

2. Basic policy regarding selection of accounting standards

The Group applies Japanese accounting standards to ensure comparability with other companies in the same industry in Japan.

3. Consolidated financial statements and notes

Cash and cash equivalents at end of period	2,659	2,957

(5) Consolidated financial statements and notes

(Going concern assumption)

Not applicable.

(Changes in accounting policies)

(Application of Accounting Standard for Revenue Recognition, etc.)

"Accounting Standard for Revenue Recognition" (ASBJ Statement No. 29, March 31, 2020. Hereinafter, "Revenue Recognition Accounting Standard"), etc. has been applied by our Company from the beginning of the current consolidated fiscal year. Revenue is recognized at the point in time when control of the promised goods or services is transferred to the customer, in the amount estimated to be received in exchange for such goods or services. Traditionally, the amount equivalent to the points granted to customers at the time of sale of products based on the points program operated by other companies was treated as selling, general and administrative expenses. However, the method has been changed, and revenue is recognized on a net amount basis based on the judgment that such amount should be regarded as collected on behalf of third parties when calculating the transaction price.

The application of the Revenue Recognition Accounting Standard follows the transitional treatment stipulated in the provision of Paragraph 84 of the Revenue Recognition Accounting Standard. However, there is no impact on retained earnings at the beginning of the current consolidated fiscal year.

As a result, net sales, gross profit, and selling, general and administrative expenses for the current consolidated fiscal year decreased by 1,277 million yen, but there was no impact on operating profit, ordinary profit, and profit before income taxes. In accordance with the transitional treatment stipulated in Paragraph 89-3 of the Revenue Recognition Accounting Standard, the results do not include information that dissects revenue from contracts with customers for the previous consolidated fiscal year.

(Application of Accounting Standard for Fair Value Measurement, etc.)

The "Accounting Standard for Fair Value Measurement" (ASBJ Statement No. 30, July 4, 2019. Hereinafter, "Fair Value Measurement Accounting Standard") has been applied from the beginning of the current consolidated fiscal year, and the new accounting policies stipulated by the Fair Value Measurement Accounting Standard, etc. will be applied prospectively following transitional treatment based on paragraph 19 of the Fair Value Measurement Accounting Standard and Paragraph 44-2 of the "Accounting Standard for Financial Instruments" (ASBJ Statement No. 10, July 4, 2019). Note that there was no impact on the consolidated financial statements.

(Change in method of presentation)

(Consolidated balance sheet related)

"Accounts receivable-other," which was included in "other" under "current assets" in the previous consolidated fiscal year, is presented as a separate line item in the current consolidated fiscal year due to its increased importance in terms of its amount. To reflect this change in presentation, we have reclassified the consolidated financial statements for the previous consolidated fiscal year.

Accordingly, the 2,415 million yen presented as "other" under "current assets" in the consolidated balance sheets for the previous fiscal year has been reclassified as "accounts receivable-other" of 1,951 million yen and "other" of 464 million yen.

(Segment Information)

(Segment Information)

1. Overview of reportable segments

Our reportable segments have separate financial information available from our constituent units and are subject to regular review by the Board of Directors to determine resource allocation decisions and assess performance.

The Group is engaged in two businesses: the "retail business" that operates drug stores and dispensing pharmacies, and the "IT solution business" that sells POS applications and others. Therefore, the reportable segments are "Retail Business" and "IT Solution Business".

2. Calculation method for the amount of sales, profit or loss, assets, liabilities and other items for each reportable segment

The method of accounting for the reported business segments is in line with the accounting policies adopted to prepare the consolidated financial statements.

Profit for the reportable segments is based on operating profit. Internal rates of return and transfers between segments are based on prevailing market prices.

As described in the changes in accounting policies, the Accounting Standard for Revenue Recognition, etc. has been applied from the beginning of the current consolidated fiscal year, and since the accounting method for revenue recognition has been changed, the method for calculating business segment profit (loss) has been changed as well.

As a result of this change, net sales in the Retail Business segment for the current consolidated fiscal year decreased by 1,277 million yen compared with the conventional method. There was no impact on segment profit.

3. Information on the amount of net sales, profits or losses, assets, liabilities, and other items for each reportable segment.

Previous consolidated fiscal year (May 16, 2020 - May 15, 2021)

(Millions of yen)

	R	eportable Segme	nt			Amount shown on consolidated	Amount shown
	Retail Business	IT Solutions Business	Total	Other (Note) 1	Total Adjustment	financial statements (Note) 2	financial statements (Note) 3
Net Sales							
External sales	82,726	98	82,824	416	83,240	_	83,240
Inter-segment sales and transfers	34	8	42	327	370	△370	_
Total	82,761	106	82,867	743	83,611	△370	83,240
Segment profit or loss	590	19	609	∆22	587	53	640
Segment assets	36,522	84	36,606	1,944	38,551	△251	38,299
Other							
Depreciation	1,150	4	1,155	9	1,164	△0	1,164
Impairment loss	183	_	183	_	183	_	183
Increase in property, plant and equipment and intangible assets	2,125	0	2,125	6	2,132	12	2,145

(Notes)

- 1. The "Other" category is a business segment that is not included in the reportable segments and includes the marketing business and the education business.
- 2. The 53 million yen adjustment to segment profit includes elimination of income and loss inter-segment transactions of 625 million yen and expenses related to the operation of the holding company of -571 million yen.
 - The -251 million yen adjustment to segment assets was eliminated by offsetting with consolidated subsidiaries of -8,914 million yen and the assets of the holding company not allocated to the reportable segment which were 8,662 million yen.
- 3. Segment profit or loss are adjusted to be consistent with operating profit shown on the consolidated income statement.

	Reportable Segment						Amount shown in consolidated
	Retail Business	IT Solutions Business	Total	Other (Note) 1	Total Adjustment	financial statements (Note) 2	financial statements (Note) 3

Impairment loss	376	-	376	_	376	_	376
Increase in property, plant and equipment and intangible assets	2,610	1	2,612	14	2,626	△11	2,615

(Notes)

- 1. The "Other" category is a business segment that is not included in the reportable segments and includes the marketing business and the education business.
- 2. The adjusted amount of 47 million yen includes elimination of income and loss transactions between reported segments of 619 million yen and expenses related to the operation of the holding company of -572 million yen. The -305 million yen adjustment to segment assets was eliminated by offsetting with consolidated subsidiaries of -9,003 million yen and the assets of the holding company not allocated to the reportable segment which were 8,697 million yen.
- 3. Segment profit or loss are adjusted to be consistent with operating profit shown on the consolidated income statement.

(Information about earning per share)

	Previous consolidated fiscal year (May 16, 2020 - May 15, 2021)	Current consolidated fiscal year (May 16, 2021 - May 15, 2022)
Book value Per Share	625.59 yen	637.45 yen
Net income per share	41.70 yen	22.98 yen
Diluted net income per share	41.69 yen	22.98 yen

(Note) 1. The basis for calculating net income per share and diluted net income per share is as follows.

Items	Previous consolidated fiscal year (May 16, 2020 - May 15, 2021)	Current consolidated fiscal year (May 16, 2021 - May 15, 2022)
Net income per share		
Net income attributable to owners of the parent (millions of yen)	574	316
Amount not attributable to common shareholders (millions of yen)	-	-
Net income attributable to the owners of the parent company in relation to common shares (millions of yen)	574	316
Average number of shares of common shares during the period	13,783,578	13,789,595
Diluted net income per share		
Net income adjustment amount attributable to owners of the parent company (millions of yen)	-	-
Increase in the number of common shares	2,218	2,420

2. The Company conducted a 3-for-1 stock split of common shares effective November 16, 2021. Net assets per share, net income per share and diluted net income per share are calculated on the assumption that the stock split was conducted at the beginning of the previous consolidated fiscal year.
