#### 1. Summary of Business Results

#### (1) Summary of Business Results for the Current Quarter

In the first quarter of the fiscal year under review, Japan's economy recovered moderately, with signs of improvement in capital investment and production, while consumer prices rose moderately and personal consumption stalled. However, the outlook remained uncertain, with raw material and energy prices remaining high, prices rising due to the depreciation of the yen, and the global situation becoming more tense.

For the first quarter of the fiscal year under review, net sales were 49,372 million yen (up 1.6% year-on-year), operating profit was 818 million yen (up 33.1% year-on-year), ordinary profit was 1,093 million yen (up 1.6% year-on-year), and profit attributable to owners of parent was 670 million yen (up 13.3% year-on-year).

The results of each segment are as follows.

#### [Corrugated Cardboard]

Domestic demand for corrugated cardboard remained at the same level as the previous year, amid continued price hikes, especially for food products, and signs of stagnation in the improvement of consumer sentiment. In the Group's Domestic Corrugated Cardboard Division, sales of corrugated cardboard for fruits and vegetables and mail-order home delivery decreased year-on-year, while sales for processed foods, a mainstay of the Group, were slightly higher than the previous year, with production volume remaining at the same level as the previous year. In the Overseas Corrugated Cardboard Division, production volume increased year-on-year due to the effects of facility expansion by Southland Box Company in the U.S. and the recovery trend in the Vietnamese economy, resulting in sales in Japan and overseas combined exceeding those of the previous year. In addition, the impact of foreign exchange also contributed positively.

As a result, net sales in the Corrugated Cardboard segment were 30,325 million yen (up 2.2% year-on-year) and operating profit was 1,907 million yen (up 10.1% year-on-year).

#### [Housing]

In the housing market, the number of new housing starts for owner-occupied houses and single-family houses for sale continued to decline from a year earlier. In the Group's Housing Division, the number of houses sold by both Sweden House Co., Ltd. and Tamazen Co., Ltd. decreased year-on-year due to factors such as rising housing prices against the backdrop of soaring material prices and increased labor costs, although the number of visitors to the exhibition hall increased.

As a result, net sales in the Housing Division were 8,441 million yen (down 3.2% year-on-year). In terms of profits, operating loss was 1,265 million yen (compared to an operating loss of 1,348 million yen in the same period of the previous fiscal year) due to the low ratio of net sales in the first half of the year to annual net sales.

#### [Transportation and Logistics]

In the Transportation and Logistics Division of the Group, while we continue to optimize logistics costs, we have seen an increase in handling volume due to the establishment of new logistics centers and the delegation of logistics operations, as well as efforts to provide relay transport between the Kanto and Kansai regions through the Chubu area in response to the 2024 logistics problem. In terms of profits, due to factors such as an increase in preparation costs for the operation of new centers, net sales in the Transportation and Logistics Division were 10,604 million yen (up 4.0% year-on-year), while operating profit was 427 million yen (down 2.1% year-on-year).

#### (2) Summary of Financial Condition for the Current Quarter

Total assets at the end of the first quarter of the consolidated accounting period decreased by \(\xi\)1,652 million from the end of the previous fiscal year to \(\xi\)211,713 million due to a decrease in cash and deposits, despite increases in notes and accounts receivable-trade, and contract assets, inventories, etc. Liabilities decreased by \(\xi\)2,093 million year from the end of the previous fiscal year to \(\xi\)122,068 million due to decreases in income taxes payable, provision for bonuses, etc., despite an increase in short-term borrowings. Net assets increased by 441 million yen from the end of the previous fiscal year to \(\xi\)9,645 million yen due to factors such as an increase in foreign currency translation adjustment.

#### (3) Explanation of Consolidated Financial Results Forecast and Other Forward-Looking Statements

Based on the results of the first quarter consolidated cumulative period, the consolidated earnings forecast for the second quarter (cumulative) and the full year has not been changed as we continue to strive to achieve the earnings forecast announced on May 8, 2024.
