FY03/2025 Result	¥77.50	¥97.50	¥175.00

3. Reason

While taking factors such as its public character as a bank business and the preservation of the soundness of its management into consideration, and based on the premise of strengthening its financial foundation, the Bank will use progressive dividends to elevate its dividend payout ratio relative to profit attributable to owners of the parent to at least 35% by the fiscal year ending March 31, 2026 and consider responsive acquisition of treasury shares with the aim of improving shareholder returns and returns on capital.

Based on the above policy and after comprehensive consideration of our business performance, the Bank has decided to pay an interim dividend of ¥113.00 per share, an increase of ¥8.00 from the dividend forecast for the fiscal year announced on May 9, 2025, and, the Bank has raised its year-end dividend forecast from the previous projection of ¥105.00 per share to ¥113.00 per share. Accordingly, the annual dividend for the current fiscal year including the interim dividend is expected to amount to ¥226.00. The projected dividend payout ratio is 35.7%.

(Note) The projected dividend payout ratio is calculated based on the profit forecast.

Based on our shareholder return policy, we will continue to pursue the appropriate return of profits to shareholders.
